FAMOUS FLYER FEARED FORCED DOWN IN OCEAN

Kingsford - Smith Reported
Seen in Distress During
Storm in Bay of Bengal

ON AUSTRALIAN FLIGHT

British Planes Prepare to
Hunt Record-Smashing
Aviator, Companion

SINGAPORE, Nov. 8.—(INS)—
Sighted in the grip of a terrific
storm 150 miles from land, Sir
Charles Kingsford-Smith, famous
Australian aviator, today was
feared to have been forced down
in the raging Bay of Bengal.

After successfully fighting the
same tempest, C. J. Melrose, also
an Australian aviator, brought his
plane into Singapore with the re-
port that he had seen Kingsford-
Smith's land monoplane in appar-
ent distress.

"Flame was leaping from his
twin exhaust pipes," Melrose said.
Kingsford - Smith's low-winged
ship flew towards the east about
200 feet higher than Melrose's, and
at a faster rate of speed, Melrose
said.

He seemed to be pressing the
"Lady Southern Cross" to its mot-
ors' limit in an attempt to reach
land.

All Ships Warned
All shipping in the Bay of Ben-
gal was warned to be on the look-
out.

A squadron of British Royal Air
force planes was tuned up at Singa-
pore ready to start out in the
storm to hunt for Sir Charles
and his flying companion, J. Thom-
as Pethybridge, also an Australian.

But it was feared that, were Sir
Charles' machine forced into the
water, it could not long remain
afloat, as it was not equipped with
pontoon.

The flyers, however, were be-
lieved to have inflatable rafts.
He had left Allahabad, India,
yesterday morning after only an
hour's stop in his dash from
Lympne airport, England, to Aus-
tralia.

Racing against time as well as
Melrose, another veteran of the
14,000-mile journey, Sir Charles
was only three hours behind the
London-Melbourne record set in
last year's air derby when he set
forth over the perilous gulf.

But he was more than four hours
overdue here, and had been out
of Allahabad more than 16 hours,
and he was said to have insuffi-
cient fuel to remain aloft that
long.

ported overdue today at Singapore

AUTO IS DEMOLISHED IN ROUTE 23 COLLISION

A Chevrolet coach owned by
Harry Litten, Ashville, was de-
molished and sold as junk Thurs-
day afternoon as the result of an
auto collision on Route 23 near
Bell Siding.

Mr. Litten escaped with bruises
but was not seriously injured. The
auto driven by Litten collided with
a Chevrolet driven by A. F.
Karsten, Briggs-st., Columbus.
Karsten suffered cuts on face and
bruises but his car was not seri-
ously damaged.

Both drivers blamed a third
auto for the collision. They told
Deputy Sheriff Bob Armstrong
the car was stopped in the center
of the road and Karsten swerved
to avoid striking the parked auto
and collided with Litten.

Karsten was driving north and
Litten south.

died of a fractured skull without
gaining consciousness.

Landon and Hoffman Make Preliminary Bids

POLITICAL observers regard the speaking
engagements of Gov. Alfred M. Landon of
Kansas and Gov. Harold G. Hoffman of New
Jersey in Cleveland as a preliminary showing
of what may be the one-two men on the Repub-
lican presidential ticket in 1936. Landon and
Hoffman, together with Gov. Martin L. Davey,
Democrat, of Ohio, were invited to address the
Ohio Chamber of Commerce. Landon, shown
above with Governor Davey, center, and Gov-

nor Hoffman, right, urged: "Let us be certain
that we are making only those changes which
are real improvements—changes dictated not
by wishful theory but by the stern teachings
of experience." Governor Hoffman spoke on
the constitution. Governor Davey, who delivered
the address of welcome, has been considered an
anti-New Deal Democrat. Landon was born
not far from Cleveland—in Mercer-co, Penn-
sylvania.

GONDAR IS NEXT IN ITALY DRIVE

Two Forces in Campaign on
Ethiopian City

LONDON, Nov. 8.—(INS)—Italian
troops today launched a two-
pronged drive on the city of Gon-
dar, important city in northwest-
ern Ethiopia only 25 miles north
of Lake Tsana, according to re-
ports received here.

Lake Tsana is one of the main
sources of the Blue Nile river, vital
to Britain's irrigation system in
Egypt. Gondar is about 125 miles
south of the Eritrean border and
is located on a main route from
Northwestern Ethiopia into Addis
Ababa.

Reuters News Agency in a Rome
dispatch reported Italian troops,
composed of native irregulars and
mechanized regular units, were ad-
vancing on Gondar from Adi Abo,
in the Aksum area, under General
Pietro Maravigna. These forces,
the first army corps, had first oc-
cupied Adi Abo.

FRENCH GIVE UP HOPE OF PEACE

Laval Abandons Efforts for
British Conciliation

PARIS, Nov. 8.—(INS)—France
has given up hope of conciliating
Italy and England for the present,
it was learned today in foreign
office circles.

With Italian troops steadily
pushing their way into the interior
of Abyssinia, Premier Laval has
decided to let events take their
course.

It is understood Laval is confi-
dent sanctions will force Italy to
negotiate in approximately three
months time.

He is of the opinion, the same
source disclosed, that if the Ital-
ian advance continues at the pre-
sent pace that Haile Selassie, by
that time, will be quite willing
to seek a peace which will meet
Mussolini's demands half way.

Diplomatic circles report that
Laval is very disturbed over ar-
ticles published in the Italian press
which label France as "Enemy No. 2."
"Enemy No. 1" is England.
He is reported as desirous of
avoiding further antagonism of
Italian public opinion in order to
maintain the recent bond allying
Italy and France as "the Latin
Sisters."

UTILITY STOCKS HIGHER AS BILL IS HELD ILLEGAL

Market Booming With Sweep-
ing Advances Noticed in
Heavy Rush of Buying

U. S. JUDGE IS OPPOSED

New York Company May Ap-
peal Decision of New
Jersey Federal Court

NEW YORK, Nov. 8.—(INS)—
The stock market opened on a
boom note today with a heavy
rush of buying resulting in sweep-
ing advances in utility issues and
less spectacular gains elsewhere
as a direct aftermath of the fed-
eral court ruling yesterday that
the Utility Holding company act
was unconstitutional.

American Telephone jumped 2-
½ points to a new high for the
year at 148-½; Peoples Gas was
up 2-½ at 39-½; Public Service

Western Union up 1-¾ at 66-¾;
Pacific Lighting up 1-¾ at 56;

shares, while Electric Bond and
Share preferred soared 4 points to
76-½.

Uncertainty in Capital

WASHINGTON, Nov. 8.—(INS)—
The sweeping decision of Fed-
eral Judge William C. Coleman in
Baltimore, holding the Utilities
Act unconstitutional, created con-
sternation in administration circles
today.

Department of Justice officials
said that because the government
was not directly a party in the
case it cannot force an immediate
appeal to the United States Su-
preme court.

The administration thus was
faced with a ruling of unconsti-
tutionality and uncertainty as to
when a final ruling could be ob-
tained from the nation's highest
legal tribunal.

The case originated when trust-
ees of the American States Pub-
lic Utility company, which is un-

"They waved. Everything looks
okay," Randall reported.

The five passengers stranded
with Herman, a former San Fran-

MUSEUM BUYS WISE'S FREAK AUTOMOBILE

Fire Chief Talmer Wise's
"what is it" automobile of the
vintage of 1902, has been
purchased by Volney Phifer,
connected with a New York
museum, the fire chief an-
nounced Friday.

The little red car, displayed
during the Pumpkin show, has
a two cylinder, air cooled
motor, believed to have been
manufactured in a foreign
country. It is belt driven and
has two single seats, one back
of the other.

Mr. Phifer told the chief
the car would be taken to
New York in a truck and "had
been driven its last mile." It
is in perfect running condition
and was driven from the fire
department to the home of
Proctor Baughman pending
the arrival of the truck from
New York.

Mr. Wise said the collector
learned of the auto through
Earle Hammond, Nome,
Alaska, driver of the dog
team during the show, who
is making a lecture tour. The
deal was arranged through
Mr. Baughman, chairman of
the parades during the cele-
bration.

Wise purchased the car
from Kelly R. Hannan, former
Lancaster and Circleville
garage operator, and was told
the car was found stored near
Athens, O.

WATSON SCORES WPA CHISELERS

Announces Plan to Prevent
Inferior Goods Sale

COLUMBUS, Nov. 8.—(INS)—
Dr. Carl Watson, Findlay, new
Ohio Works Progress Adminis-
trator, today announced a new
plan to prevent chiseling on sales
of materials to the WPA.

Samples of materials to be used
on WPA projects will be tested at
laboratories and all inferior sup-
plies rejected, he said. "Honest
dealers will be protected against
bids of unscrupulous salesmen by
this plan," declared Watson.

Representatives of scientific
laboratories in major Ohio cities
were asked today to submit bids
on contracts for testing the mate-
rials. Materials to be tested will
include cement, paving brick,
bituminous materials, paints, wire
and waterproofing fabric.

reported here today.

Allen's resignation, Lieut. Gov.
James A. Noe's ascendancy to the
governorship, and Noe's subse-
quent appointment of Allen to fill
the vacancy was said to have been
agreed upon at a political meeting
here last night.

The Democratic state committee
met yesterday and set Jan. 21, as
the date for a primary to name
a candidate for Long's unexpired
term.

Allen had previously announced
he would be a candidate. It was
reported he planned to resign as
governor immediately.

6 TRAIN ROBBERS FUGITIVES AFTER OBTAINING \$46,450

CLEVELAND, Nov. 8.—(INS)—
Search for six machine-gun ban-
dits who staged a daring daylight
holdup at Garrettsville, O., and
robbed the mail car of an Erie
railroad train of mail pouches
containing \$34,000 in currency and
\$12,450 in securities centered in
Cleveland today under the direc-
tion of federal authorities.

Department of justice agents
and postal inspectors were being
assisted in the investigation by
state highway patrolmen and of-
ficers of sheriffs' and police de-
partments throughout north-
eastern Ohio.

The bold robbery was staged in
typical Jesse James fashion as the
train, enroute from Cleveland to
Pittsburgh, stopped at 2:15 p. m.
yesterday at the depot in Garretts-
ville, which is southeast of here
in Portage-co.

ELECTION BOARD ENDS DEADLOCK IN CASTING LOT

Mayor Has Five Days in
Which to Demand City's
Ballots Be Recounted

TO MEET ADVISORS

No Disputed Ballots Found as
Board Goes Through All
Nine Precincts

Will J. Graham, Republi-
can and former deputy inter-
nal revenue collector, will be
Circleville's next mayor un-
less a recount, expected to
be demanded by Mayor Wil-
liam B. Cady, uncovers an
error in ballot tabulation.

Mr. Graham was announ-
ced Friday as the next may-
or by the board of elections
which cast a lot resulting in his
favor. He and Mr. Cady tied in
Tuesday's election at 1,375 votes.

The election board met at 9
a. m. Friday to open envelopes
containing disputed ballots. The
meeting was closed with only
election board officials partici-
pating. It was announced at the
conclusion of this meeting that there
were no disputed ballots and that
Mr. Graham had been decided the
winner by lot.

Name Drawn From Box

Board officials did not announce
what sort of lot was employed
but it was reported names of
both men were placed in a box
and Mrs. Mary M. Leist, chairman
of the board, drew out the name
of the successful candidate.

Mr. Graham was in the hall and
was informed of the action. Mayor
Cady was not in the city building
at the time of the drawing.

Thursday, it was announced the
board would study the disputed
ballots at a public meeting but this
was changed after election officials
conferred with Secretary of State
George S. Myers. Thursday eve-
ning, and he advised them to make
their decisions in a closed meeting.

May Demand Recount

Announcement that Mr. Graham
had been chosen does not mean
that the contest for the office is
closed. Mayor Cady may demand a
recount in any or all of the city's
nine precincts. He must post \$5
bond to cover expenses in the re-
count of each precinct. If errors
are found in his favor the money
is returned; if no errors are found
he forfeits his money.

Should the recount result in no
change in the vote the lot would
stand and Mr. Graham would be
assured of the office.

Mayor Cady was to meet short-
ly after noon today with his legal
advisors, George G. Adkins, C. A.
Leist and Emmitt L. Crist, to de-
cide what course would be fol-
lowed.

It was freely predicted Mayor
Cady would not permit the elec-
tion contest to end as a result of
the lot. He has five days in which
to act.

Members of the election board
include: Mrs. Leist, Republican,
chairman; T. J. Burgett, Republi-
can; J. R. Hott, Democrat; Rus-
sell Imler, Democrat; M. B.
Trout, Democrat, clerk; H. E.
Weill, Republican, deputy clerk.

SOLONS RETURN NEXT WEEK TO FACE REAL JOB

Taxation First Task to Be
Fired at Legislators; Long
Session Seen

COLUMBUS, Nov. 8.—(INS)—The state legislature will attack the goliath legislative problem, taxation, next week, leaders indicated today.

J. Freer Bittinger, Ashland, speaker of the House, said he may call members of the lower body back into session Tuesday. He indicated the House will start work on taxation as soon as Governor Davey sends a taxation message to the general assembly.

Sen. Paul P. Yoder, Dayton, Democratic floor leader in the senate, delayed recalling the upper branch until late next week, but, members of the upper body suggested that the senate will delve into the budget bill very soon and turn its attention to tax

matters looming as the new year approaches.

Senate taxation committee members are now at work discussing many proposals for extension of present tax laws and possible new taxes.

A prolonged fight in both houses of the assembly is expected to develop and the legislature may remain in session beyond the close of 1935.

TERWILLIGER TALKS ON ACCIDENT PREVENTION

Stating that deaths from accidents is appalling, Meeker Terwilliger, speaking before the Rotary club at meeting Thursday noon, explaining the Highway Accident Prevention campaign of the Red Cross and gave other information regarding safety.

"While many deaths and permanent injuries occur in highway accidents," he said, "the home is danger zone No. 1. As 34,500 lives were lost in 1934 from accidents in the home." He enumerated the causes of these accidents such as dark stairways, slippery floors, defective wiring, etc.

"But the increase in highway accidents has been too great in recent years," he continued, "for during the last fifteen years 389,000 men, women and children have been killed in highway accidents compared to the 250,000 killed in the American wars including the Revolutionary War in 1776. Pedestrians have caused most of these highway accidents."

In conclusion he said that most traffic laws are laughed at and it behooves the auto drivers to be more careful to help reduce this death toll and every driver should proceed with safety on the idea that the other fellow has the right of way.

George Rader, the second high school senior to attend three meetings of Rotary, gave a short talk telling of his ideas about Rotary and thanked the club for its support in helping the athletic association in getting new equipment for the football team.

LIBRARY NOTES

The New York Times puts "On the must read list," Henry Morton Robinson's "Science versus Crime," a book which reveals the almost magical results of the new scientific methods of crime detection. It should certainly give the average person new ideas about "circumstantial" evidence.

Two annual volumes, always looked forward to, have been received at the library—Edward J. O'Brien's selection of "The Best Short Stories of 1935" and Burns Mantle's "Best Plays of 1934-35."

Rather appalling in size, Will Durant's "Story of Civilization" may not have quite the wide reading that his "Story of Philosophy" has had, but this first volume, portraying Oriental civilization, will appeal to many serious readers. It is a book that will be read, and re-read, and referred to, as long as any one is interested in mankind and human development.

Grove Hambridge's earlier book "Time to Live" gave the reader something to think about; his new book of adventures in "backyard farming," "Enchanted Acre," may inspire many plans for doing things. This item may be a reminder that winter is the best time to read, and dream, about gardens, and the Public Library has many delightful books about gardening.

CITY TO CAST VOTES IN NEW STRAW POLL

Individual ballots have been mailed to voters of Circleville and nearby communities in a new Literary Digest poll of 10,000,000 persons to ascertain the present popularity of the New Deal and should be distributed by the Post Office locally within a few days.

Ohio's returns in this new referendum will be tallied as a unit so they may be compared with the voting in other States, it is announced.

OPEN LETTERS

TO CITY VOTERS

FRIENDS: You should be congratulated on approving the \$50,000 bond issue in the election Tuesday. As a result the city's youth will have a better place to secure its education. Conditions at the high school and Corwin-st buildings are most unfavorable and with the amount of the bond issue as the city's share for a PWA project an addition will be made to each building. These two schools are especially crowded for room and pupils are hampered for adequate amount of space for classes and social activities. After the addition the two buildings will be connected making it more convenient for the students to go from one school to the other and there will be ample room in the new structure to take care of the high school needs for many years. I hope that Circleville residents will always act favorably on projects that will aid in advancing education.

CIRCUITEER

BOOSTERS OF THE CITY PARK

CITIZENS: The action of city council Wednesday night in giving the proposed park project a back seat in WPA plans seems a death knell to your efforts. You have worked hard for the project but many local citizens have failed to back you up before interest in the project lagged to a point of defeat. Council no doubt believes the canal recreational project will furnish local persons a place to picnic, fish and swim, and the city had better use its funds to build a disposal plant. If the plant is not constructed soon, the city will be forced to build one.

CIRCUITEER

TO PWA OFFICIALS

U. S. EMPLOYEES: The 70.6 per cent vote Circleville residents gave the \$50,000 bond issue Tuesday should be enough to show you that they want an addition to their present high school and Corwin-st building. When taxpayers cast their votes in favor of additional levies on their property it shows that nearly everyone is well aware of the crowded conditions prevailing in the schools. Every year it requires two weeks or more to begin actual operation of the buildings after school starts because officials have been unable to work out a proper seating system. NOW it is up to you to get behind the Circleville project and push it to completion. True, there are many projects to be considered but you can do your best to provide Circle-

WORLD AT A GLANCE

The Washington administration by no means is appreciative of the note of thanks which it recently received from the League of Nations for American co-operation with the league in the latter's effort to compel peace between Italy and Ethiopia. The administration doesn't want to admit that it is co-operating with the league and here is the league thanking it for having come so!

The league, on its part, does want to give the impression that the United States is a league power in all but name, hoping thus to assimilate it into league councils in such fashion that anti-league Americans will not realize that the United States is being so assimilated until its assimilation is an accomplished fact.

HAND MAY BE FORCED

I am not so sure that the administration (a considerable percentage of it, anyway) is averse to American entrance into the league, but it prefers not to be advertised to that effect at pres-

ent, or for some time to come. It is conscious that plenty of anti-entrance sentiment exists in the land, and is unwilling to be attacked in congress next winter on the ground that it is trying surreptitiously to commit Uncle Sam to so pro-league a policy that he won't be able to renege. The leaguers, however, are doing their best to force Uncle Samuel's hand.

SHREWD REASONING

The present, according to the reckoning of overseas diplomacy, is the ideal juncture to make Uncle Sam begin fishing in the international pond, instead of continuing to sit on the bank, cutting bait. Hence the insistence of statesmen like Prime Minister Stanley Baldwin of Britain that John Bull can't make up his mind what to do until he knows what Uncle Sam will do next. Hence the league's demand for an advance outline of American policy if the league blocks Italy.

League statesmanship knows full

ville with the necessary money to continue the fine program. You will put the government in even higher regard in Circleville than it now is by favorable action on the application.

CIRCUITEER

TO THE POSTMASTER

DEAR MR. HAYS: You may well be proud of the fine structure the government has provided you and your employees. While there are many finer buildings in Ohio owned by the government there are none that provide better working quarters than yours. The office, since it is occupied, looks much better than while it was vacant, and the cement work and landscaping add much to the appearance of the property. You can help make the Circleville post office a splendid institution by continuing a courteous and gentlemanlike policy.

CIRCUITEER

TO THE ATHLETIC CLUB

SPORTSMEN: You are now in the midst of plans for your big fair which will be held the last week in November. Success to you. You have been shown that civic organizations are behind you by the action the Elk's club took the other evening in doing away with plans for a Thanksgiving dance so as not to cut into any crowds your fair might attract. The club has even gone so far as to make plans for an Elk's night. Your rejuvenation program is going rapidly forward and seems in the hands of the right men. I sincerely hope before long the Circleville Athletic club can again take over the place it formerly occupied in Circleville activities, sponsoring basketball, football and baseball teams, providing a place for your members to obtain recreation.

CIRCUITEER

TO THE COMMISSIONERS

GENTLEMEN: Why throw a monkey wrench into the Court-st reconstruction project and slow down the machinery? City residents appreciate your willingness to stand half of the material expense but they are anxious to see these projects get underway. Isn't it far better to have relief employables on WPA jobs this winter than have them on direct relief with the taxpayers carrying the load? Do you realize only four farmers had asked for corn huskers at the Reemployment office up to the time you made your complaint about the work starting before Nov. 15. Some farmers may have difficulty finding huskers but consider your relief problems this winter.

CIRCUITEER

TO MR. FRANCIS, GAME PROTECTOR

DEAR SIR: We admire the splendid work you have done in Pickaway-co. Sportsmen know you mean business and are willing to assist you when you need aid. Violators found out long ago you would stand for no foolishness and as a result few violations are reported in the county. If you can just fix the weather, anglers should have some real sport next year considering all the fine fish you have "planted."

CIRCUITEER

TO THE LEGIONNAIRES

VETERANS: I hope Circleville civic and social organizations fall into the spirit of the occasion and give you a lot of support in your Armistice parade and dance Monday evening. You deserve support for taking over Armistice and Memorial days as "your" holidays. Both rightfully belong to the veterans and your efforts in continuing them as National holidays do not go unnoticed.

The Romance Racket

CHAPTER 47

"NOW IT IS my turn to ask your forgiveness for surprising behavior," Ricardo said to Carol but there was an implish grin on his face and insolence in his very pose. Not the sort of insolence one could take offense at, Carol thought hastily.

"Yes," she said, thoughtfully stopping to study the setting sun as though a record of Ricardo's misdeeds was written there. "It was most surprising behavior." There wasn't the slightest suggestion of condemnation in her voice.

"You couldn't really have minded so much. You did come!" Carol didn't like the wheedling assistance in his tones; he was so sure he could charm her. Her voice was as cool and detached as she could make it.

"I hadn't the faintest idea you were the nephew the marquessa meant. One meets many young men in Paris."

"Of course one does. Did you think possibly it might be I?"

"My dear prince, why should I?" Carol looked at him quite wide-eyed.

"I thought perhaps you might have guessed that I wanted to see you after our so brief meeting."

His words rippled her studied calm with a flutter of excitement she strove to hide.

"I thought perhaps you might like to see me again under circumstances more... more correct."

Carol didn't answer that directly. She strolled at his side touching, but not seeing, the flowers that bordered their walk. How much she had wanted to see him, she did not want him to know.

"How did you discover my name? How did you learn that we were coming here?"

"That was quite simple. I inquired at the desk of your hotel. I called the next day and learned that you had left for Nice."

"But we didn't leave our forwarding address," she said, caught off guard.

"That wasn't necessary. Such information is easy to get when one wants to have it badly."

"And you wanted it badly?" Carol's eyebrows were raised in questioning but her eyes were soft.

"Very," he answered.

"I've met some friends of yours, the Holmquist," Carol said, to cover the pause she found embarrassing.

"Tony? Mimi? Splendid. We shall have some good times together. You will dine with me tonight?"

"Sorry," Carol said, and it cost her much. She wanted to dine with him but his very attractiveness and her wanting to be with him so much that she felt it was better to be very sure of her ground. She felt it quite possible that she would act completely school-girlish on him... and over him.

"Tomorrow," he asked.

"I don't know that I will dine with you tomorrow but I will be on the sands at 11."

"I will call for you at quarter of the hour."

Carol was silent on their drive back to their hotel. Miranda chattered away about their visit. She didn't remember hearing Carol say that she had met the prince in Paris. She had forgotten that Carol had told her she hadn't. She thought the marquessa amusing and that it was nice of her to invite them to tea, but she was not impressed. The villa was charming but not quite calm. The marquessa was excellent. Unfortunately the marquessa did not care for cards. However, she had accepted an invitation to tea with Miranda.

When was Carol going to see the prince?

"Oh, he's calling in the morning to take me to the beach," she said casually.

"How charming these continentals are. Escorting you across the boulevard! Well, he is very attractive, my dear, and he seems to be very much interested in you. However, I do not think you will find him as attractive as David. David is your own kind. These foreign young men undeniably have charm but it is purely a passing one."

"Of course," Carol murmured. Undeniable was right!

She was glad that she was not going with the Holmquists to the Casino that night. She wanted to be alone, to bask in the moonlight, to hear the soft strains of the music, to feel the gentle breeze blowing her hair.

"I am sure you are a passing one," she said after a while. "If I were a passer and knew more about these things, perhaps my impressions would be more nearly correct."

"What impression did you get?" Carol nibbled on her roll as though she really tasted it.

"I didn't notice it when I was there because I've grown accustomed to having perfect strangers ask me the most astonishingly personal questions," Miranda rambled on trying to recall what it was that had led to all this. "But it seems to me that the marquessa was quite out-doing the others. She asked all sorts of personal questions."

"About what, for instance?" Carol didn't want to sound too interested.

"About us. Where we came from. I had the impression that she was trying to discover our social background, our family business—for, of course, she believes I am your aunt—and our reasons for being abroad."

"Well," Carol said reasonably, "wouldn't you be interested in an Italian lady and her niece if you had asked them to tea in New York? Perhaps she couldn't think of anything else to talk about."

"Perhaps you are right," Miranda said slowly.

"But you haven't told me what she said about Ricardo," she persisted. There was so much she wanted to hear.

"She didn't say anything about him but that's the whole thing. I felt that she was trying to find out how much money we had. I knew she was thinking about him... and you."

"Miranda Van Cleve, you are an old romanticist! Why should a distinguished and handsome prince be interested in me?"

"I can think of many reasons why he might and one good reason why he wouldn't be and that one good reason was what the marquessa was looking for. Money!"

"Nonsense," Carol said happily, running for the shower and her beach togs. It was nearly quarter to 11.

Carol was strangely silent in the gay company that welcomed Ricardo with any cries of "Dickie! What brought you back? We heard you were having a marvelous time in Paris."

She could stand her own silence no longer. Words had left her. She plunged into the water and swam out with a slow, smooth stroke and pulled herself up on the float beside Tony.

From there she could see Dickie as he stood out clearly from all the others. He wore white trunks snug about his slim hips. The sun made satin the brown of his bare wide shoulders, the gleaming black of his hair.

Her gaze was riveted on him.

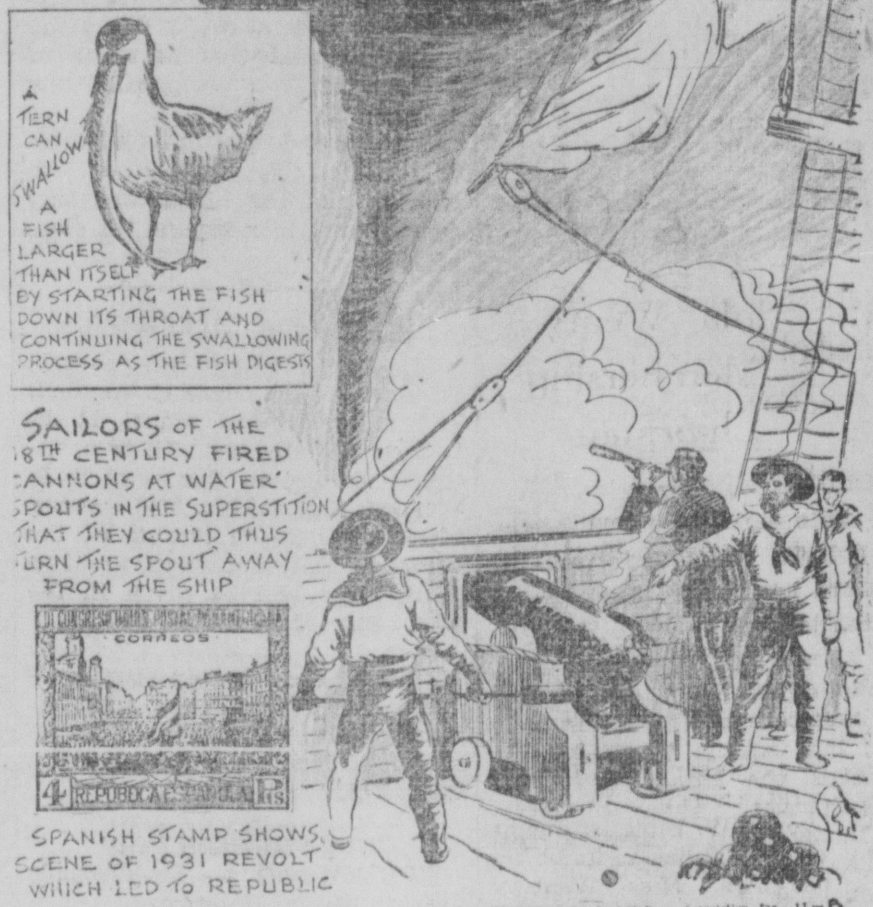

"Do you like him?" she asked Tony. No need to mention his name; Tony knew who she meant.

"Yes and no," Tony said. He rose to dive back into the water. And then—in a mutter she could hardly hear—"Darned fortune-hunter."

Kidneys Seldom Involved When Backache Persists

By LOGAN CLENDENING, M. D.

BACKACHE, if it persists for any length of time, usually brings up sinister and gloomy mental pictures before the victim. About the only reason for backache that he can think of involves his kidneys. It is comforting to know that the kidneys seldom are—in fact, so rarely as to be negligible—the cause of chronic backache. Pain in lower part of the back is usually due to strain or to sciatica, which will be considered in other articles this week. Pain in the middle of the back so often ascribed to the kidneys is, in about 45 per cent of cases, what is generally called, "lumbago," and in about 45 per cent of cases, some form of strain.

Women are more subject to backache than men. In fact, a cynical physician has described woman as "a constipated biped with a backache."

The cause of the more frequent backache in women is due to the strain of child bearing.

Lumbago, like sciatica, is about as cantankerous and mean and ornery a pain as a person can have. It originates in all the little tendons, muscles and fibers in the back, and makes every movement a torture. You do not realize how much you use any part of your body until it

begins to pain, but this is particularly true of the back. In treatment, the first thing is to make a diagnosis to be sure it is only lumbago or strain, and then go ahead. Strain can be cured by rest and proper support in the way of a corset. But I am convinced that the only thing to do with lumbago is to iron it out, which means get some blankets, or pieces of flannel, lie down on your face, and get your wife or somebody—no matter who—to run a hot iron over you three or four times a day and possibly two or three times at night. If you can't induce your wife to take this much interest in you, there is always somebody else—for instance, a trained nurse. A little massage is good, too, provided you can stand to let anybody touch you.

QUESTIONS FROM READERS

READER: "Please mention in your column if there is a treatment and cure for kidney stones, and if it is possible for them to be passed."

ANSWER: Kidney stones are frequently passed. They go down the small canal from the kidney to the bladder. The name of this canal is the "ureter." These stones usually cause a great deal of pain in the passage. After they reach the bladder they can be ejected from the body in the urethra with no pain at all.

EDITOR'S NOTE: Six pamphlets by Dr. Clendening can now be obtained by sending 10 cents in coin, for each, and a self-addressed envelope stamped with a three-cent stamp, to Dr. Logan Clendening, in care of this paper. The pamphlets are: "Indigestion and Constipation," "Reducing and Gaining," "Infant Feeding," "Instructions for the Treatment of Diabetes," "Feminine Hygiene," and "The Care of the Hair and Skin."

Carrying trade is a phrase used in political economy and also in commercial transactions. It usually refers to the commerce of different countries with each other.

The earliest glove makers in history were the monks under Charlemagne who were granted the unrestricted right of hunting in return for making gloves, girdles and book covers from the skins of the deer they killed.

Poems That Live

"I HEARD A SOLDIER"

I heard a soldier sing some trifle Out in the sun-dried veldt alone; He lay and cleaned his grimy rifle Idly, behind a stone.

"If after death, love, comes a waking, And in their camp so dark and still The men of dust hear bugles, breaking Their halt upon the hill.

"To me the slow and silver pealing That then the last high trumpet pours Shall softer than the dawn come stealing, For, with its call, comes yours!"

What grief of love had he to stifle, Basking so idly by his stone, That grimy soldier with his rifle Out in the veldt alone?

MISPLAYED TWOS

THE DECLARER'S advantage in at once detecting his full resources and how to utilize them to best possible advantage, require the defender to make use of conventional plays that are unmistakable. When South dealt, his side had 40 points on the rubber game. His opponents had 30 points. Three-odd at a successful major suit call meant game for either side.

New Guildcrafters Unit Being Organized in City

Miss Lola Wentworth Is Membership Chairman

A group of Circleville women interested in the creative arts and crafts is organizing a branch of the National Guildcrafters, an association of men and women active in work in applied arts, either as an avocation or as a source of income.

The membership campaign, inaugurated recently by Miss Lola Wentworth, W. Union-st., membership chairman, has as its objective 100 members. Miss Wentworth, who is an art graduate of Ohio State university and Columbus Art School, is being assisted by the following men and women, who are acting as sponsors:

Mrs. Hulise Hays, president of the southeast district of the Ohio Federation of Women's clubs; Mrs. Adrian Yates, Monday club president; Mrs. Howard Moore, member of the Board of Education; Mrs. Clark Will, president of the Child Conservation league; Mrs. Bertha Teegardin, club woman; Mrs. W. W. Robinson, a Girl Scout leader and a member of the Papyrus club; Frank Fischer, superintendent of schools, and Theodore C. Steele, graduate of Columbus Art school, and one of southern Ohio's outstanding artists.

The activities of the local unit of the National Guildcrafters will be social and cultural. Through national headquarters of the organization, located at Columbus, members of the local unit will be given individual training in 24 popular arts and crafts. This extension course was specially prepared for members by Ella L.

Langenberg, nationally known writer on artwork subjects, authority on interior decoration and costume design, and a former art instructor at the Chicago Art Institute, Hunt College, the Snow-Froehlich Schools (Chicago and New York) and the Berkshire School of Art, Monterey, Mass.

As soon as membership requirements have been met, those behind the movement expect to establish an art center which will serve as a meeting place for the society. The Art Center, when established, will also be used for exhibitions, charity bazaars, and informal functions sponsored by the organization.

The national organization, according to Miss Wentworth, eventually expects to have training courses in all forms of art expression to offer members. A short course in Freehand and Figure Drawing, prepared and illustrated by Alfred G. Pelikan, former instructor of art at the University of Michigan, and at present art director of the Milwaukee public schools, has been printed and is available to local members who have had applied art training.

Mrs. Leona Fetterman, who works out of the main office, is here assisting Miss Wentworth in the organization and is residing at 416 S. Court-st.

Officers Elected
Miss Mary Clements and Irvin Yeoman are the new worthy matron and worthy patron, respectively, of Purity chapter Order of the Eastern Star at New Holland. They were named at the regular meeting held this week.

Other officers elected were Pryor Timmons, associate patron; Miss Mary Skinner, associate matron; Mrs. Jane B. May, secretary; Mrs. Ida Gooley, treasurer; Mrs. Ruth Taylor, conductress; Miss Betsy Briggs, associate conduct-

ress; Mrs. Charlotte Timmons, trustee for three years.

At the next regular meeting of the chapter, Nov. 19, there will be two candidates for the initiatory degrees of the order. Concord chapter of Frankfort and Clinton chapter of Wilmington have been invited to this meeting.

pletely "ducked" twice. Four men are needed in the operation and Dr. J. L. Spindler, Ashville veterinarian, is state supervisor in charge of the work.

The tank used is 11 feet long, 32 inches wide at the top and 18 inches at the bottom. It is five feet deep. The solution is heated by a steam boiler and three heated drying pens are used. These pens are arranged so the solution returns to the dipping tank. Large sheep soak up about 2½ gallons of the dipping compound and lambs average about three-fourths of a gallon.

The new concrete building, housing the dipping tank, is 24 by 18 feet and has a basement under one room for the boiler and tank.

Harry J. Briggs, service manager of the Farm Bureau, announced arrangements are being made to have dippings for private owned flocks on Wednesday morning before the stock sale or on other days by special appointment.

Under the law pigs are given a double treatment for cholera which includes a one-third larger dose of serum than ordinarily given, Mr. Briggs stated.

Officials expressed deep interest in dispatches stating that Burco, Inc., of New York, a defendant in the case, will appeal. The government, however, always prefers to appeal a case in which it is directly a party.

Collusion Claimed

Action of Judge Coleman in refusing the government's contention that there was collusion in the case, and in holding that John W. Davis of New York properly represented Fred Lautenbach, a Baltimore dentist, was hailed by Utilities interests.

WASHINGTON, Nov. 8.—(INS)

President Roosevelt had no comment today on the Baltimore federal court decision which held the Wheeler-Rayburn holding company act to be unconstitutional in its entirety.

It was indicated, however, that Mr. Roosevelt might have something to say later in the day when he sees reporters in his regular Friday press conference.

President Roosevelt exerted strong personal pressure in the closing days of the last congress to obtain enactment of the bill.

Liberal Allowance for YOUR OLD STOVE on a Genuine Estate Heatrola

Look! The diagram shows the big reason why the genuine Heatrola gives MORE HEAT with LESS FUEL. The Intensi-Fire Air Duct spans the combustion chamber, blocks the escape of much of the heat which in ordinary heaters goes to waste—up the chimney.

Listen! It pays to buy the genuine Heatrola, for only the genuine has the Intensi-Fire Air Duct, the Ped-a-Level Feed Door, and other exclusive fuel saving, labor saving features.

Come in and make arrangements for a new Heatrola now. Take advantage of an allowance on your old stove.

COUNTY BIDS FOR NATIONAL CORN HUSKING CONTEST

BLAIR, AGENT, SHAFER ATTEND INDIANA MEET FAMOUS FLYER FEARED FORCED DOWN IN OCEAN

Believe Pickaway-Co Has Good Chance to Obtain Important Competition

Pickaway-co will make a bid for the 1937 national corn husking contest.

F. K. Blair, county extension agent, representing the Farm Bureau, and Reed Shafer, representing the Circleville Chamber of Commerce, left Thursday night to attend the event at Newton, Ind., and file their request.

Members of the Farm Bureau and local citizens believe no better section of the country could be selected for the national event than the fine corn fields of Pickaway-co.

24 TAKEN OFF SHIP

MIAMI, Fla., Nov. 8—(INS)—Twenty-four members of the crew of the Bull line freighter, Elizabeth, blown aground half a mile from shore during Monday's hurricane, were removed by the coast guard today because of fears the ship would crack up at any time. Captain C. F. Grant and four subordinate officers remained aboard the vessel.

The keel is shattered, Milton Williams, port captain of the Bull line said. He will direct salvage operations.

on a flight to Brisbane, knows the 14,000 mile road to Australia as many a commuting motorist knows his 14 mile road home.

He first flew into fame when in the wide-winged monoplane, the Southern Cross, he made the first trans-Pacific flight, winging his way to San Francisco from Australia by way of Hawaii in June, 1925.

Against the advice of friends and well-wishers he turned right around and flew back to New Zealand in September of that year. In 1929 he broke the record for the Australia-to-England course.

In 1930 he became one of the first to make a successful flight westward across the Atlantic. He flew from Ireland in the Southern Cross. He was given a big ovation in New York. He delivered his beloved plane to Oakland, Cal. and then returned to England to do something about the news that Squadron Leader Winkler had broken his time on the Australian route.

He left England alone and arrived in Australia ten days later, an undreamed of performance and one that still stands as the solo record for the flight.

In 1930 he made the first all-Australian air mail flight to England and back. He was knighted by the King in recognition of his work in shortening "the far-flung line."

BRIGGS REMEMBERS SNOW 22 YEARS AGO

Twenty-two years ago today, Pickaway-co had an 8-inch snow and Harry Briggs, service manager of the Farm Bureau, then a farmer in Perry-twp, picked his apple crop.

Mr. Briggs explained the date was definitely fixed in his mind as Nov. 7, 22 years ago, was the arrival date of his daughter, Alice Elizabeth. He said he had planned to pick the apples on that date but the storm changed his plans and the following morning the ground was covered with the snow blanket.

"We shook the apples off the trees and the snow prevented them from being bruised," Mr. Briggs stated.

Sleeves Intriguing

Irene Dunne's white fur sports jacket has most intriguing sleeves, marking it decidedly 1935-6. In the making of the jacket the skins are alternated, giving it distinction. The jacket tops a brown crepe frock and hat with accessories to match.

"Calumet sure gives you your money's worth, with that Big New 10¢ Can!"

SAYS MRS. W. W. HICKEY, OF CHICAGO, ILL.

"THERE'S a lot of good baking in that 10c can of Calumet," observes Mrs. Hickey. "It's worth more than a dime any day!"

"Of course, with my big family I get the full-pound can—and it's only 25c now. As long as I bake, Calumet will be in my pantry!"

Grandfather, Rommel, who was a baker for 40 years, says: "Calumet takes the guesswork out of the job nowadays."

LOOK AT THE NEW CALUMET CAN! A simple twist... and the Easy-Opening Top lifts off. No delay, no spilling, no broken fingernails!

WHAT makes Calumet so dependable? Why is it different from other baking powders? Calumet combines two distinct leavening actions. A quick action for the rising bowl—set free by liquid. A slower action for the oven—set free by heat. This Double-Action produces perfect leavening.

All Calumet prices are lower! Calumet is now selling at the lowest prices in its history... The regular price of the Full-Pound Can is now only 25c! And ask to see the new 10c can—a lot of good baking for a dime—with Calumet, the Double-Acting Baking Powder. A product of General Foods.

LARGE AMOUNT OF WHEAT CASH GIVEN FARMERS

All Expense is Under Terms of AAA; Two Hundred Millions to Men of Soil

The wheat program of the Agricultural Adjustment administration meant about \$100,000,000 a year additional income to wheat farmers for each of the first two years of the program and will mean about \$115,000,000 additional income for the third year. The 1936-1939 wheat program is expected to mean similar additional income.

By far the greater amount of the funds of the wheat program goes to farmers. For instance, for the first two years of the wheat program, the adjustment payments amounted to \$200,250,000. In this same period the cost of administration was \$5,800,000.

Items For Exports
Other expenditures under the wheat program have been those made according to the terms of the Agricultural Adjustment Act among these items are funds used to promote exports from the Pacific Northwest and refunds made on exports. The refunds of the processing tax exports are made to others when they export wheat. These refunds are made so that the tax does not handicap exports. During the first two years the total export refunds and funds used to promote exports was \$10,500,000. Millers who ground flour for relief purpose paid the tax, but this was later refunded to them. This amounted to \$3,500,000 during the first two years of the program.

When the wheat program began, the flour stocks of flour which had been ground before the tax was effective, but which had not entered consumption, were taxed.

Britain's Vital Interest in Ethiopia

Great Britain's vital interest in Ethiopia is Lake Tsana, source of the Blue Nile. The British are reputed to have offered Emperor Haile Selassie \$5,000,000 for the lake, but the emperor refused. Now Italy may gain it by conquest, which disturbs the British. Lake Tsana's waters at present irrigate

lands along the Nile, permitting extensive cotton cultivation in Egypt. If Italy should deflect the waters, it could irrigate vast stretches in Ethiopia for cotton growing, at the same time hampering the growth of cotton in Egypt and reducing cotton imports into Italy.

This amounted to \$13,900,000. This amount is being held until the future time when the tax may be lifted and refunds will be necessary on floor stocks on which the tax had been paid.

COLLECTIONS LISTED

Mayor W. B. Cady reported collections for October as \$122.70. Collections for Berger hospital for the month totalled \$1,443.96. L. T. Shaner, safety director, reported.

IT WORKED FOR ME

Women should take only liquid laxatives
MORE people could feel fine, be fit and regular, if they would only follow the rule of doctors and hospitals in relieving constipation. Never take any laxative that is harsh in action. Or one, the dose of which can't be exactly measured. Doctors know the danger if this rule is violated. They use liquid laxatives, and keep reducing the dose until the bowels need no help at all. Reduced dosage is the secret of aiding Nature in restoring regularity. You must use a little less laxative each time, and that's why it should be a liquid like Syrup Pepsin. Ask your druggist for a bottle of Dr. Caldwell's Syrup Pepsin, and if it doesn't give you absolute relief, if it isn't a joy and comfort in the way it overcomes biliousness due to constipation, your money back.

Mild and yet they Satisfy
—how do you do that?

Well, to start with, we take tobacco from our own Southland — mild ripe tobacco with lots of natural flavor but no harshness or bitterness.

THEN AS A SECOND STEP—
We blend this home-grown tobacco with spicy, aromatic Turkish tobaccos from across the seas. These Turkish tobaccos, you may know, have a flavor and fragrance entirely different from our own.

AS A THIRD STEP—
These tobaccos are cross-blended—welded together—the best way we've found to get a more pleasing flavor and a better taste in a cigarette.

THAT'S WHY CHESTERFIELDS ARE MILD AND YET THEY SATISFY

In a single day people from ten different states visited our Chesterfield factories. 8,200 visitors during the past year saw Chesterfields made.

FAMOUS FLYER FEARED FORCED DOWN IN OCEAN

Kingsford - Smith Reported
Seen in Distress During
Storm in Bay of Bengal

ON AUSTRALIAN FLIGHT

British Planes Prepare to
Hunt Record-Smashing
Aviator, Companion

SINGAPORE, Nov. 8—(INS)—
Sighted in the grip of a terrific
storm 150 miles from land, Sir
Charles Kingsford-Smith, famous
Australian aviator, today was
feared to have been forced down
in the raging Bay of Bengal.

After successfully fighting the
same tempest, C. J. Melrose, also
an Australian aviator, brought his
plane into Singapore with the re-
port that he had seen Kingsford-
Smith's land monoplane in appar-
ent distress.

"Flame was leaping from his
twin exhaust pipes," Melrose said.
Kingsford - Smith's low-winged
ship flew towards the east about
200 feet higher than Melrose's, and
at a faster rate of speed, Melrose
said.

He seemed to be pressing the
"Lady Southern Cross" to its mo-
tor's limit in an attempt to reach
land.

All Ships Warned
All shipping in the Bay of Ben-
gal was warned to be on the look-
out.

A squadron of British Royal Air
force planes was tuned up at Singa-
pore ready to start out in the
storm to hunt for Sir Charles
and his flying companion, J. Thom-
as Pethybridge, also an Australian.

But it was feared that, were Sir
Charles' machine forced into the
water, it could not long remain
afloat, as it was not equipped with
pontoon.

The flyers, however, were be-
lieved to have inflatable rafts.
He had left Allahabad, India,
yesterday morning after only an
hour's stop in his dash from
Lymington airport, England, to Aus-
tralia.

Racing against time as well as
Melrose, another veteran of the
14,000-mile journey, Sir Charles
was only three hours behind the
London-Melbourne record set in
last year's air derby when he set
forth over the perilous Gulf.

But he was more than four hours
overdue here, and had been out
of Allahabad more than 16 hours,
and he was said to have insuffi-
cient fuel to remain aloft that long.

Sir Charles Kingsford-Smith, re-
ported overdue today at Singapore.

AUTO IS DEMOLISHED IN ROUTE 23 COLLISION

A Chevrolet coach owned by
Harry Litten, Ashville, was de-
molished and sold as junk Thurs-
day afternoon as the result of an
auto collision on Route 23 near
Bell Siding.

Mr. Litten escaped with bruises
but was not seriously injured. The
auto driven by Litten collided with
a Chevrolet driven by A. F.
Karsten, Briggs-st., Columbus.
Karsten suffered cuts on face and
bruises but his car was not seri-
ously damaged.

Both drivers blamed a third
auto for the collision. They told
Deputy Sheriff Bob Armstrong
the car was stopped in the center
of the road and Karsten swerved
to avoid striking the parked auto
and collided with Litten.

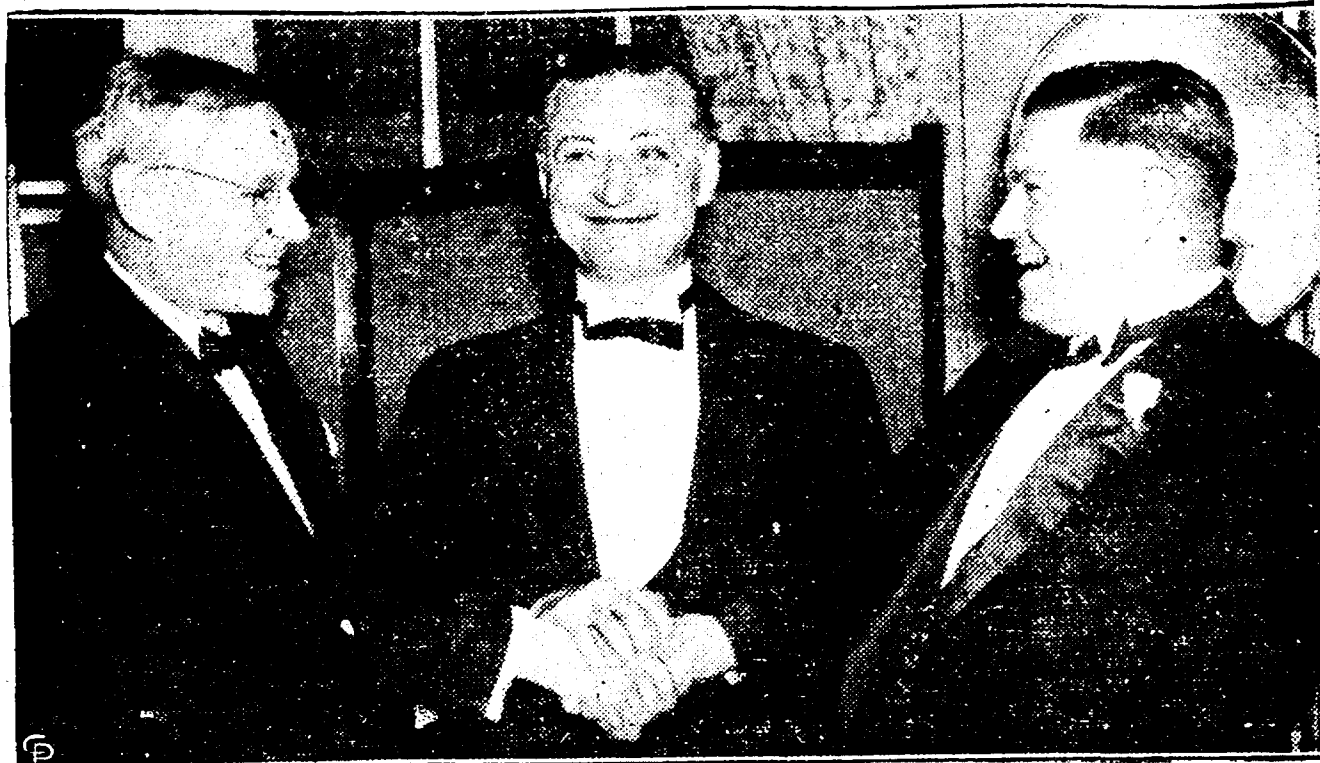

Karsten was driving north and
Litten south.

Landon and Hoffman Make Preliminary Bids

POLITICAL observers regard the speaking
engagements of Gov. Alfred M. Landon
of Kansas and Gov. Harold G. Hoffman of New
Jersey in Cleveland as a preliminary showing
of what may be the one-two men on the Repub-
lican presidential ticket in 1936. Landon and
Hoffman, together with Gov. Martin L. Davey,
Democrat, of Ohio, were invited to address the
Ohio Chamber of Commerce. Landon, shown
above with Governor Davey, center, and Gov-

nor Hoffman, right, urged: "Let us be certain
that we are making only those changes which
are real improvements—changes dictated not
by wishful theory but by the stern teachings
of experience." Governor Hoffman spoke on
the constitution. Governor Davey, who delivered
the address of welcome, has been considered an
anti-New Deal Democrat. Landon was born
not far from Cleveland—in Mercer-co, Penn-
sylvania.

lian troops today launched a two-
pronged drive on the city of Gon-
dar, important city in northwest-
ern Ethiopia only 25 miles north

to Britain's irrigation system in
Egypt. Gondar is about 125 miles

FRENCH GIVE UP HOPE OF PEACE

Laval Abandons Efforts for
British Conciliation

PARIS, Nov. 8—(INS)—France
has given up hope of conciliating
Italy and England for the present,
it was learned today in foreign
office circles.

With Italian troops steadily
pushing their way into the interior
of Abyssinia, Premier Laval has
decided to let events take their
course.

It is understood Laval is confi-
dent sanctions will force Italy to
negotiate in approximately three
months.

He is of the opinion, the same
source disclosed, that if the Ital-
ian advance continues at the pre-
sent pace that Haile Selassie, at
that time, will be quite willing
to seek a peace which will meet
Mussolini's demands half way.

Diplomatic circles report that
Laval is very disturbed over arti-
cles published in the Italian press
which label France as "Enemy No. 2."
"Enemy No. 1" is England. He
is reported as desirous of
avoiding further antagonism of
Italian public opinion in order to
maintain the recent bond allying
Italy and France as "the Latin
Sisters."

Market Booming With Sweep-
ing Advances Noticed in
Heavy Rush of Buying

U. S. JUDGE IS OPPOSED

New York Company May Ap-

Jersey Federal Court

NEW YORK, Nov. 8—(INS)—
The stock market opened on a

ing advances in utility issues and
less spectacular gains elsewhere

eral court ruling yesterday that
the Utility Holding company act

American Telephone jumped 2-
1/2 points to a new high for the

Uncertainty in Capital

WASHINGTON, Nov. 8—(INS)—
The sweeping decision of Fed-
eral Judge William C. Coleman in
Baltimore, holding the Utilities
Act unconstitutional, created con-
sternation in administration circles
today.

Department of Justice officials
said that because the government
was not directly a party in the
case it cannot force an immediate
appeal to the United States Su-
preme court.

The administration thus was
faced with a ruling of unconsti-
tutionality and uncertainty as to
when a final ruling could be ob-
tained from the nation's highest
legal tribunal.

The case originated when trust-
ees of the American States Pub-
lic Utility company, which is un-

DAWSON, Y. T., Nov. 8—(INS)—

Dog teams were to set out today
for an isolated spot 35 miles south
of here to rescue Pilot Jack Her-
man and five airplane passengers.

They had been missing since last
Saturday when Herman took off

Bob Randall, Northern airways
pilot, sighted Herman's missing
plane yesterday and reported he
saw six persons at a cabin nearby.

"They waved. Everything looks
okay," Randall reported.

The five passengers stranded

MUSEUM BUYS WISE'S FREAK AUTOMOBILE

Fire Chief Talmer Wise's
"what is it" automobile of the
vintage of 1902, has been
purchased by Volney Phifer,
connected with a New York
museum, the fire chief an-
nounced Friday.

The little red car, displayed
during the Pumpkin show, has
a two cylinder, air cooled
motor, believed to have been
manufactured in a foreign
country. It is belt driven and
has two single seats, one back
of the other.

Mr. Phifer told the chief
the car would be taken to
New York in a truck and "had
been driven its last mile." It
is in perfect running condition
and was driven from the fire
department to the home of
Proctor Baughman pending
the arrival of the truck from
New York.

Mr. Wise said the collector
learned of the auto through
Earle Hammond, Nome,
Alaska, driver of the dog
team during the show, who
is making a lecture tour. The
deal was arranged through
Mr. Baughman, chairman of
the parades during the cele-
bration.

Wise purchased the car
from Kelly R. Hannan, former
Lancaster and Circleville
garage operator, and was told
the car was found stored near
Athens, O.

the organization had been wiped

It was asserted in well-informed

WATSON SCORES WPA CHISELERS

Announces Plan to Prevent
Inferior Goods Sale

COLUMBUS, Nov. 8—(INS)—

Dr. Carl Watson, Findlay, new
Ohio Works Progress Adminis-
trator, today announced a new
plan to prevent chiseling on sales
of materials to the WPA.

Samples of materials to be used
on WPA projects will be tested at
laboratories and all inferior sup-
plies rejected, he said. "Honest
dealers will be protected against
bids of unscrupulous salesmen by
this plan," declared Watson.

Representatives of scientific
laboratories in major Ohio cities
were asked today to submit bids
on contracts for testing the mat-
erials. Materials to be tested will
include cement, paving brick,
bituminous materials, paints, wire
and waterproofing fabric.

ALLEN TO RESIGN AS GOVERNOR TO TAKE LONG'S JOB

NEW ORLEANS, Nov. 8 (INS)—
Gov. Oscar K. Allen will resign to
accept the United States senate
seat left vacant by the death of
Heup P. Long, it was authentically
reported here today.

Allen's resignation, Lieut. Gov.
James A. Noe's ascendancy to the
governorship, and Noe's subse-
quent appointment of Allen to fill
the vacancy was said to have been
agreed upon at a political meeting
here last night.

The Democratic state committee
met yesterday and set Jan. 21, as
the date for a primary to name
a candidate for Long's unexpired
term.

Allen had previously announced
he would be a candidate. It was
reported he planned to resign as
governor immediately.

ELECTION BOARD ENDS DEADLOCK IN CASTING LOT

Mayor Has Five Days in
Which to Demand City's
Ballots Be Recounted

TO MEET ADVISORS

No Disputed Ballots Found as
Board Goes Through All
Nine Precincts

Will J. Graham, Republi-
can and former deputy internal
revenue collector, will be
Circleville's next mayor un-
less a recount, expected to be
demanded by Mayor Wil-
liam B. Cady, uncovers an
error in ballot tabulation.

Mr. Graham was announ-
ced Friday as the next may-
or by the board of elections
which cast a lot resulting in his
favor. He and Mr. Cady tied in
Tuesday's election at 1,375 votes.

The election board met at 9
a. m. Friday to open envelopes
containing disputed ballots. The
meeting was closed with only
election board officials partici-
pating. It was announced at the
conclusion of this meeting that there
were no disputed ballots and that
Mr. Graham had been declared
victor by lot.

Name Drawn From Box

Board officials did not announce
what sort of lot was employed
but it was reported names of
both men were placed in a box
and Mrs. Mary M. Leist, chair-
man of the board, drew out the name
of the successful candidate.

Mr. Graham was in the hall and
was informed of the action. Mayor
Cady was not in the city building
at the time of the drawing.

Thursday, it was announced the
board would study the disputed
ballots at a public meeting but this
was changed after election officials
conferred with Secretary of State
George S. Myers, Thursday eve-
ning, and he advised them to make
their decisions in a closed meeting.

May Demand Recount

Announcement that Mr. Graham
had been chosen does not mean
that the contest for the office is
closed. Mayor Cady may demand a
recount in any or all of the city's
nine precincts. He must post \$5
bond to cover expenses in the re-
count of each precinct. If errors
are found in his favor the money
is returned; if no errors are found
he forfeits his money.

Should the recount result in no
change in the vote the lot would
stand and Mr. Graham would be
assured of the office.

Mayor Cady was to meet short-
ly after noon today with his legal
advisors, George G. Adkins, C. A.
Leist and Emmitt L. Crist, to de-
cide what course would be fol-
lowed.

It was freely predicted Mayor
Cady would not permit the elec-
tion contest to end as a result of
the lot. He has five days in which
to act.

Members of the election board
include: Mrs. Leist, Republican
chairman; T. J. Burgett, Republi-
can; J. R. Hott, Democrat; Rus-
sell Imler, Democrat; M. B.
Trout, Democrat, clerk; H. E.
Weill, Republican, deputy clerk.

Gopher Machine Should Crush Iowa

ANN ARBOR, Mich., Nov. 8.—Saturday was not a particularly happy day for about eight important football teams. That number dropped from the ranks of the undefeated big fellows and took their places among the more lowly of the gridiron clan. In other words, that fateful day played hob with their hopes for achievement of that mythical goal, the so-called National Championship of 1935.

The big casualty was, of course,

HOSTER VICTOR BY KAYO OVER DAYTON YOUTH

Lands Knockout Blow in First Round; Barkens Wins from Pug Fowler

If local fistie fans want fast action with a touch of "furious" thrown in and have it over quick, they should have been pleased with Norman Aronson's first fight card of the winter punched out last night in the Armory.

In the main go Jackie Hoster, hard hitting Columbus lightweight who has his eye on the state title, put a right hook sleeper on Danny Raedon's chin in one minute and 40 seconds. Previous to the knockout punch Hoster laid two body blows on Raedon that put him down for the count. The fight was fast and furious while it lasted but Hoster was too experienced a boxer for Raedon, whose home is in Dayton. Both were announced at 155 pounds. Gaines Hill was referee.

Barkens Is Winner
Jack Barkens won the decision over "Pug" Fowler in the semi-roundup featuring heavy slugging and wide misses. The bout was speedy with Barkens specializing on Fowler's back during the final round. Barkens was the aggressor throughout the battle. Their weights were 155 pounds.

The bout between Edgar Stevens and George "Ike" Davis, colored, came to a sudden end in the first round when Davis went out on a technical knockout with a dislocated left thumb. Davis made a wide swing and his thumb connected with Stevens' arm. The boys slugged hard and fast before the accident. Their weights were announced at 160 pounds.

Eddie Hird, colored, took the decision over Emerson Sayre, in the third round of the first preliminary with a technical knockout near the close of the third period. The 120 lb. boys staged a two party "free for all." Bird was handiest with his left and when Sayre went down he apparently decided it was so near the close he would just take all the count and have it over.

Pickens, Ferguson Help
Bill Pickens was announcer and Lundy Ferguson refereed the preliminaries. All bouts were listed as three-round struggles. A fair-sized crowd attended the opener. Aronson is promoting his battles this season under the title, 20th Century Sportsmen's club of Ohio.

KEY ADMITS HOAX IN GRIDIRON ACTIVITY

LOS ANGELES, Nov. 8.—(INS)—"The game is over, the whistle has blown, the other side finally has won."

And with those words Clois Francis "Shorty" Key, alias R. F. "Ted" Key, today had admitted being the principal in one of the biggest hoaxes in gridiron history. Since the fullback was withdrawn from the University of California at Los Angeles lineup last Saturday, a few minutes before they played California, Key steadfastly denied he was anyone other than Ted Key.

But late yesterday, after nearly a week of intensive investigation conducted on a half dozen fronts, Key admitted he was not Ted Key but Clois Key.

ROME, Nov. 8.—(INS)—Italy probably will not compete in the 1936 Olympic games at Berlin. Achille Starace, secretary general of the Fascist party and director of all Italian sports activities, said

Ohio State, which succumbed at the hands of its neighbor, Notre Dame. As a result, all those rosy dreams they have been enjoying down at Columbus must now be revamped into terms of a possible Western Conference title. Such an achievement would satisfy most any of the Big Ten members, but Ohio had been looking higher.

Notre Dame and Minnesota now remain as the outstanding mid-west contenders for the big title. Marquette is still in the race, but, as I will indicate on here, my crystal shows some dark clouds on the Milwaukee team's horizon for next Saturday.

Minnesota, striving to repeat its Big Ten and National championship of last year, faces the obstacle produced by Ossie Solem, himself an old-time Gopher, who has turned out a fine Iowa university eleven this year. Up to Nov. 2, Solem's team was in the select class, but day found the Hawkeyes hopes blasted by a battling Indiana team, which held the Iowa men to a tie.

This Iowa obstacle should just spur the onrushing Minnesota juggernaut to greater efforts this coming week-end. The Gophers have developed slowly and surely as do all good teams from the northland. It has been gaining momentum as the season has rolled along. It hit a new high Saturday against the powerful Purdue eleven. By all the laws of Gopherdom the team will go right

IRISH-WILDCAT GAME FEATURE

Notre Dame May Put Pilney in for Single Play

CHICAGO, Nov. 8.—(INS)—With the Big Ten schedule just so, Notre Dame steals the spotlight in the middleweek once again this weekend.

Though Northwestern is given little chance of upsetting either the dope or the Irish, the game is expected to be a sell-out. For one thing, thousands are anxious to see the team which apparently is heading for a national championship. For another, the game is a traditional affair and in the past has always been a dog fight, despite contrasting early season records.

Pilney May Appear
For the sake of sentiment and, mayhap, a touchdown pass, Andy Pilney is expected to throw his crutches and hobble into the game for one play. It was Andy who scored the winning touchdown against the Purple last year. And it was that play which started the Irish back on their winning streak. They haven't lost a game since.

In the Big Ten the Illinois-Michigan affair at Champaign looks like the close one. Michigan is undefeated and untied in conference competition and on that record ranks as the favorite.

Ohio State tackles Chicago here. The outcome is only a question of how well the Buckeyes have come off the heart breaker lost to Notre Dame last Saturday. However, the Buckeyes' record of being undefeated and untied in the Big Ten should be unblemished at sundown tomorrow.

Iowa Underdog

The powerhouse from Minneapolis will be entertained at Iowa City, and can be rated as nothing except a misery to Iowa's homecomers. Especially since the Hawkeye's title hopes and ego were blasted by the tie with Indiana last Saturday.

Purdue, with a defeat by Minnesota blotting its record, goes to Madison for an engagement with Wisconsin, without a record.

ELSER MAY GET CALL

NOTRE DAME, Ind., Nov. 8.—(INS)—Don Elser, 220-pound back who has been riddling the reserves in practice this week, is a likely starter in the Notre Dame backfield against Northwestern here tomorrow. Coach Layden is more concerned over a replacement for Dick Pfefferle, giant tackle, than the injured Andy Pilney and Fred Carideo. He is long on backs, but short on line reserves.

Ramblers Roll On

The Hawkeyes started fast, swept Colgate into the discard, halted the Trojan-devouring Illini, but then stumbled when Indiana came to town. That type of going is rather consistency. Iowa many times has power, but it lacks the ability to maintain sustained effort. From its record one might almost say that Iowa is on the down grade, while Minnesota is distinctly marching in the opposite direction.

Notre Dame entertains Northwestern at South Bend. Certain now that they are title-bound, the Ramblers will ride through on the drive which they started in the last quarter of the Ohio State game. There are a couple of things must be taken into consideration, though, when we study this Notre Dame-Northwestern game of next Saturday.

The Evanston team has met a lot of big fellows this year. Though they haven't been very successful in these battles, they certainly are not going to be overdrawed by the Layden team. The Wildcats have seen too many good teams to get panicky when just another big shot comes along. Then, too, the heroic Pilney will be out of the Notre Dame line-up. The stage is perfectly set for a surprise. Northwestern has been promising someone all year. This may be the time.

CHEVROLETS OUT-BOWL NEW HOLLAND OUTFIT

The Chevrolet bowling team took on the New Holland aggregation of the Washington C. H. league Thursday evening and won in three straight games and also in total pins.

About This And That In Many Sports

Pojman Also A Hero

A hero has been overlooked in Notre Dame's victory last week over Ohio State—He is Henry Pojman, second-string center for the Irish—When Dick Beltz was hit in midfield and lost the ball, he half-turned and pushed the ball toward the sidelines, and under most circumstances would have been the boy who last touched it, therefore it was his—But Pojman, have not snatched the opportunity who started to work at the half, was on his toes and touched the pigskin before it got beyond the white stripe—Many linemen would have not snatched the opportunity that was his—Everyone knows what Andy Pilney and other Irish stars did from there on ***

Reserve Vs. Ohio U.

Western Reserve's great grid team is angling for a post-season contest with Ohio university and we'd be inclined to pick the Cleveland outfit to take the Bobcats—Both teams are splendid but we believe Reserve has the most powerful aggregation even if Ohio U. did beat Illinois: that is becoming a common custom ***

Van Mungo and Di Maggio

The Sporting News; baseball paper, now has Van Mungo, mighty Brooklyn pitcher, in a Cardinal uniform next year *** Colonel Jake Ruppert was in the west a week ago and saw Joe Di Maggio, who joins the Yanks next year, in action in a charity game for Alameda Elks—Di Maggio failed to get a hit in a double bill and fozzled his only outfield chance—Ruppert said he was probably saving his good games for next year ***

What of Cage Team?

We have heard and we hope it is true that the C. A. C. is going to sponsor a basketball team this winter—If some of the boys who really can play basketball get into condition and stay that way Circleville can have a darned good team—Merriman, Joe Barnes, Carl Purcell are all fast enough for a darned good team—Macklin, former Bellepoint star, is working here and would be willing to play—Then there is Shadel Saunders at New Holland, Bob Terhune at Jackson-twp., and a couple of others—A good team would be well supported ***

WILDCAT'S STARTING LINEUP IS ANNOUNCED

CHICAGO, Nov. 8.—(INS)—The Northwestern lineup that will start against Notre Dame at South Bend tomorrow was announced today: Johnny Kovatch and Henry Long-fellow, ends; Park Wray and Vance Burnett, tackles; Paul Tangora and Steve Ried, guards; Al Lind, center; Don Geyer, quarterback; Don Heap and Wally Cruise, halfbacks; and Hugh Duvall, full-back.

LAND BUYERS

My Bargain farm for this week—152 acres, located on good highway three miles from church, schools, and markets. Fences good with few exceptions well tiled, red clay and black ground, of the very best quality, and the kind of land that is responsible for the large fortunes amassed by the early settlers of this community.
Residence—A very attractive, well arranged, comfortable country home, consisting of seven rooms, cellar, natural gas for heating, lighting, and cooking, on which the up-keep is inexpensive, and surrounded by fine large shade trees, on elegant blue grass lawns, giving the appearance of a little park. Has well built barns, implement sheds, scales and outbuildings of every description.
For the past 50 years and at the present time this farm has never been occupied by any other than the original owner or members of his immediate family, all of whom were artists in the agricultural profession. They knew what to do, and when to do it, and for that reason, together with the extraordinary quality of the soil, this farm has honestly earned the reputation of being one of the most outstanding and productive in the community.
This farm is rented for the ensuing year on cash rent basis, and the income that will be derived by the present owner for that year, will amount to more than three times the amount of interest, the purchase price of these premises would earn, if placed on certificate of deposit, in Ohio's leading financial institutions. When this farm is sold this rent contract automatically becomes the property of the purchaser.
If these statements are true why would you not consider this farm a good investment?
Millions of working men that have been idle for years, will be at work within the next few weeks at good substantial wages, and those men will buy the products of the farm, but if you can not hope to be one of the beneficiaries of this movement.
Price—very reasonable. Terms cash or will loan from 5 to 9 thousand on sole security of these premises.
If this particular farm does not fill the bill I have plenty of others in most any locality in central Ohio. If interested call or see JAMES H. JOHNSON, Williamsport, Ohio.

Taxation First Task to Be
Fired at Legislators; Long
Session Seen

COLUMBUS, Nov. 8.—(INS)—The state legislature will attack the goliath legislative problem, taxation, next week, leaders indicated today.

J. Freer Bittinger, Ashland, speaker of the House, said he may call members of the lower body back into session Tuesday. He indicated the House will start work on taxation as soon as Governor Davey sends a taxation message to the general assembly.

Sen. Paul P. Yoder, Dayton, Democratic floor leader in the senate, delayed recalling the upper branch until late next week, but members of the upper body suggested that the senate will delve into the budget bill very soon and turn its attention to tax

matters looming as the new year approaches. Senate taxation committee members are now at work discussing many proposals for extension of present tax laws and possible new taxes.

A prolonged fight in both houses of the assembly is expected to develop and the legislature may remain in session beyond the close of 1935.

TERWILLIGER TALKS ON ACCIDENT PREVENTION

Jessica Dragonette
Miss Dragonette is heard at 8 o'clock this evening over the National Broadcasting Co. stations.

"Pathless Wood," a new play written especially for the WOSU Players by Virginia Rita Gunn, is the offering of the University thespians at 8 p. m. Friday. The Players, one of the oldest dramatic groups on the air, are now launching their ninth successive season on the air. Friel Heimlich is director of the group.

Dr. Harlow Lindley, secretary and librarian of the Ohio State Museum and an authority on Ohio history, will picture "The Westward Advance" in the museum's weekly program over WOSU, Ohio State University station, at 9:15 p. m. Friday.

It was good to hear a voice that has been missed from the airwaves for some time—we refer to Connie Boswell, who made an appearance on the new Ray Noble show over CBS, and will do a return engagement next Wednesday night on the same hour.

FIDDLERS AND YODELERS COMPETE IN CHILLICOTHE

The time is drawing near when we will all be going to the Elks' Hall in Chillicothe to cheer for our favorite Fiddler or Yodeler. Yes sir! Just one more day in fact tomorrow night, Saturday, is the night. And what a night this will be! Fiddlers and yodelers battling it out for the championship of Ross, Hocking, Pickaway and Vinton counties. The winners will not only receive cash prizes, but will also be eligible to compete in the central and southern Ohio state championship contest which will be announced at a later date.

Radio-stage and recording artists will start the show off with a bang, promptly at eight o'clock. They feature such artists as "Brownie", national champion fiddler; Lee Boswell, NBC and recording artist; Kermit the "hermit," "Curly" the maestro of strings, Cranberry Bill will furnish you with plenty of laughs and may be a yodel or two.

LIBRARY NOTES

The New York Times puts "On the must read list," Henry Morton Robinson's "Science versus Crime," a book which reveals the almost magical results of the new scientific methods of crime detection. It should certainly give the average person new ideas about "circumstantial" evidence.

Two annual volumes, always looked forward to, have been received at the library—Edward J. O'Brien's selection of "The Best Short Stories of 1935" and Burns Mantle's "Best Plays of 1934-35."

Rather appalling in size, Will Durant's "Story of Civilization" may not have quite the wide reading that his "Story of Philosophy"

has had, but this first volume, portraying Oriental civilization, will appeal to many serious readers. It is a book that will be read, and re-read, and referred to, as long as any one is interested in mankind and human development.

Grove Hambridge's earlier book "Time to Live" gave the reader something to think about; his new book of adventures in "backyard farming," "Enchanted Acre," may inspire many plans for doing things. This item may be a reminder that winter is the best time to read, and dream, about gardens, and the Public Library has many delightful books about garden-

CITY TO CAST VOTES IN NEW STRAW

Individual ballots have been mailed to voters of Clevelândia and nearby communities in a new literary digest poll of 10,000,000 voters to ascertain the present popularity of the New Deal and should be distributed by the Post Office locally within a few days.

Olio's returns in this new referendum will be tallied as a unit so they may be compared with the voting in other States, it is announced.

OPEN LETTERS

TO CITY VOTERS

FRIENDS: You should be congratulated on approving the \$50,000 bond issue in the election Tuesday. As a result the city's youth will have a better place to secure its education. Conditions at the high school and Corwin-st buildings are most unfavorable and with the amount of the bond issue as the city's share for a PWA project an addition will be made to each building. These two schools are especially crowded for room and pupils are hampered for adequate amount of space for classes and social activities. After the addition the two buildings will be connected making it more convenient for the students to go from one school to the other and there will be ample room in the new structure to take care of the high school needs for many years. I hope that Circleville residents will always act favorably on projects that will aid in advancing education.

CIRCUITEER

BOOSTERS OF THE CITY PARK

CITIZENS: The action of city council Wednesday night in giving the proposed park project a back seat in WPA plans seems a death knell to your efforts. You have worked hard for the project but many local citizens have failed to back you up before interest in the project lagged to a point of defeat. Council no doubt believes the canal recreational project will furnish local persons a place to picnic, fish and swim, and the city had better use its funds to build a disposal plant. If the plant is not constructed soon, the city will be forced to build one.

CIRCUITEER

TO PWA OFFICIALS

U. S. EMPLOYEES: The 70.6 per cent vote Circleville residents gave the \$50,000 bond issue Tuesday should be enough to show you that they want an addition to their present high school and Corwin-st building. When taxpayers cast their votes in favor of additional levies on their property it shows that nearly everyone is well aware of the crowded conditions prevailing in the schools. Every year it requires two weeks or more to begin actual operation of the buildings after school starts because officials have been unable to work out a proper seating system. NOW it is up to you to get behind the Circleville project and push it to completion. True, there are many projects to be considered but you can do your best to provide Circleville with the necessary money to continue the fine program. You will put the government in even higher regard in Circleville than it now is by favorable action on the application.

WORLD AT A GLANCE

The Washington administration by no means is appreciative of the note of thanks which it recently received from the League of Nations for American co-operation with the league in the latter's effort to compel peace between Italy and Ethiopia.
The administration doesn't want to admit that it is co-operating with the league and here is the league thanking it for having done so.
The league, on its part, does want to give the impression that the United States is a league power in all but name, hoping thus to assimilate it into league councils in such fashion that anti-league Americans will not realize that the United States is being so assimilated until its assimilation is an accomplished fact.
HAND MAY BE FORCED
I am not so sure that the administration is so sure of its percentage of it, anyway is average American entrance into the league but it prefers not to be forced to that effect at present.

ville with the necessary money to continue the fine program. You will put the government in even higher regard in Circleville than it now is by favorable action on the application.

CIRCUITEER

TO THE POSTMASTER

DEAR MR. HAYS: You may well be proud of the fine structure the government has provided you and your employees. While there are many finer buildings in Ohio owned by the government there are none that provide better working quarters than yours. The office, since it is occupied, looks much better than while it was vacant, and the cement work and landscaping add much to the appearance of the property. You can help make the Circleville post office a splendid institution by continuing a courteous and gentlemanlike policy.

CIRCUITEER

TO THE ATHLETIC CLUB

SPORTSMEN: You are now in the midst of plans for your big fair which will be held the last week in November. Success to you. You have been shown that civic organizations are behind you by the action the Elk's club took the other evening in doing away with plans for a Thanksgiving dance so as not to cut into any crowds your fair might attract. The club has even gone so far as to make plans for an Elk's night. Your rejuvenation program is going rapidly forward and seems in the hands of the right men. I sincerely hope before long the Circleville Athletic club can again take over the place it formerly occupied in Circleville activities, sponsoring basketball, football and baseball teams, providing a place for your members to obtain recreation.

CIRCUITEER

TO THE COMMISSIONERS

GENTLEMEN: Why throw a monkey wrench into the Court-st reconstruction project and slow down the machinery? City residents appreciate your willingness to stand half of the material expense but they are anxious to see these projects get underway. Isn't it far better to have relief employables on WPA jobs this winter than have them on direct relief with the taxpayers carrying the load? Do you realize only four farmers had asked for corn huskers at the Reemployment office up to the time you made your complaint about the work starting before Nov. 15. Some farmers may have difficulty finding huskers but consider your relief problems this winter.

CIRCUITEER

TO MR. FRANCIS, GAME PROTECTOR

DEAR SIR: We admire the splendid work you have done in Pickaway-co. Sportsmen know you mean business and are willing to assist you when you need aid. Violators found out long ago you would stand for no foolishness and as a result few violations are reported in the county. If you can just fix the weather, anglers should have some real sport next year considering all the fine fish you have "planted."

CIRCUITEER

TO THE LEGIONNAIRES

VETERANS: I hope Circleville civic and social organizations fall into the spirit of the occasion and give you a lot of support in your Armistice parade and dance Monday evening. You deserve support for taking over Armistice and Memorial days as "your" holidays. Both rightfully belong to the veterans and your efforts in continuing them as National holidays do not go unnoticed.

The Romance Racket
MARIE BLIZARD

CHAPTER 47
"NOW IT IS my turn to ask your forgiveness for surprising behavior," Ricardo said to Carol but there was an impish grin on his face and insolence in his very pose. Not the sort of insolence one could take offense at, Carol thought hastily.
"Yes," she said, thoughtfully stopping to study the setting sun as though a record of Ricardo's misdeeds was written there. "It was most surprising behavior." There wasn't the slightest suggestion of condemnation in her voice.
"You couldn't really have minded so much. You did come!"
Carol didn't like the wheedling assurance in his tones; he was so sure he could charm her. Her voice was as cool and detached as she could make it.
"I hadn't the faintest idea you were the nephew the marquessa meant. One meets many young men in Paris."
"Of course one does. Did you think possibly it might be I?"
"My dear prince, why should I?" Carol looked at him quite wide-eyed.
"I thought perhaps you might have guessed that I wanted to see you after our brief meeting."
His words rippled her studied calm with a flutter of excitement she strove to hide.
"I thought perhaps you might like to see me again under circumstances more... more correct."
Carol didn't answer that directly. She strolled at his side touching, but not seeing, the flowers that bordered their walk. How much she had wanted to see him, she did not want him to know.
"How did you discover my name?"
"How did you learn that, we were coming here?"
"That was quite simple. I inquired at the desk of your hotel. I called the next day and learned that you had left for Nice."
"But we didn't leave our forwarding address," she said, caught off guard.
"That wasn't necessary. Such information is easy to get when one wants to have it badly."
"And you wanted it badly?" Carol's eyebrows were raised in questioning but her eyes were soft.
"Yes," he answered.
"I've met some friends of yours, the Holmquist's," Carol said, to cover the pause she found embarrassing.
"Tony? Mimi? Splendid. We shall have some good times together. You will dine with me tonight?"
"Sorry," Carol said, and it cost her much. She wanted to dine with him but his very attractiveness and her wanting to be with him so much that she felt it was better to be very sure of her ground. She felt it quite possible that she would act completely school-girlish on him... and over him.
"Tomorrow?" he asked.
"I don't know that I will dine with you tomorrow but I will be on the sands at 11."
"I will call for you at quarter of the hour."
Carol was silent on their drive back to their hotel. Miranda chattered away about their visit. She didn't remember hearing Carol say that she had met the prince in Paris. She had forgotten that Carol had told her she hadn't. She thought the marquessa amusing and that it was nice of her to invite them to tea, but she was not impressed. The villa was charming but not quite clean. The tea was excellent. Unfortunately the marquessa did not care for cards. However, she had accepted an invitation to tea with Miranda.
When was Carol going to see the prince?
"Oh, he's calling in the morning to take me to the beach," she said casually.
"How charming these continentals are! Exciting you across the Channel! Well, he is very attractive, my dear, and he seems to be very much interested in you. However, I do not think you will find him as attractive as David. David is your own kind. These foreign young men undeniably have charm but it is purely a passing one."
"Of course," Carol murmured. Undeniable was right!
She was glad that she was not going with the Holmquist's to the Casino that night. She wanted to be alone, to bask in the moonlight, to hear the soft strains of the music, to feel the gentle breeze blowing her children. She wanted to enjoy a solitary background against which her thoughts ran in dreamy riot.
The next morning the water seemed bluer than she had ever seen it. The fragrance of the mingled scents of flowers and salty air sent a heady perfume to her senses. She lay back on her pillows and luxuriated in her anticipation.
"Aunt Margaret," she said casually to Miranda when they were having their morning chocolate. "Did the marquessa talk about her nephew Ricardo?"
"Yes," Miranda stirred the milk in her cup, thoughtfully. "Yes, she did," she said after a while. "If I were a mother and knew more about these things, perhaps my impressions would be more nearly correct."
"What impression did you get?"
Carol nibbled on her roll as though she really tasted it.
"I didn't notice it when I was there because I've grown accustomed to having perfect strangers ask me the most astonishingly personal questions," Miranda rambled on trying to recall what it was that had led to all this. "But it seems to me that the marquessa was quite out-doing the others. She asked all sorts of personal questions."
"About what, for instance?" Carol didn't want to sound too interested.
"About us. Where we came from. I had the impression that she was trying to discover our social background, our family business—for, of course, she believes I am your aunt—and our reasons for being abroad."
"Well," Carol said reasonably, "wouldn't you be interested in an Italian lady and her niece if you had asked them to tea in New York? Perhaps she couldn't think of anything else to talk about."
"Perhaps you are right," Miranda said slowly.
"But you haven't told me what she said about Ricardo," she persisted. There was so much she wanted to hear.
"She didn't say anything about him but that's the whole thing. I felt that she was trying to find out how much money we had. I know she was thinking about him... and you."
"Miranda Van Cleve, you are an old romanticist! Why should a distinguished and handsome prince be interested in me?"
"I can think of many reasons why he might and one good reason why he wouldn't be and that one good reason was what the marquessa was looking for. Money!"
"Nonsense," Carol said happily, running for the shower and her beach togs. It was nearly quarter to 11.
Carol was strangely silent in the gay company that welcomed Ricardo with gay cries of "Dickie! What brought you back? We heard you were having a marvelous time in Paris."
She could stand her own silence no longer. Words had left her. She plunged into the water and swam out with a gasp, and she pulled herself up on the float beside Tony.
From there she could see Dickie as he stood out clearly from all the others. He wore white trunks snug about his slim hips. The sun made satin the brown of his bare wide shoulders, the gleaming black of his hair.
Her gaze was riveted on him.
"Do you like him?" she asked Tony. No need to mention his name; Tony knew who she meant.
"Yes and no," Tony said. He rose to dive back into the water. And then in a minute she could hardly hear—
"Darned fortune-hunter!"

Poems That Live

"I HEARD A SOLDIER"
I heard a soldier sing some trifle
Out in the sun-dried veldt alone;
He lay and cleaned his grimy rifle
Idly, behind a stone.
"If after death, love, comes a waking,
And in their camp so dark and still
The men of dust hear bugles breaking
Their halt upon the hill.
"To me the slow and silver pealing
That then the last high trumpet pours
Shall softer than the dawn come stealing,
For, with its call, comes yours!"
What! grief of love had he to stifle,
Basking so idly by his stone,
That grimy soldier with his rifle
Out in the veldt alone?

Kidneys Seldom Involved When Backache Persists

By LOGAN CLENDENING, M. D.
BACKACHE, if it persists for any length of time, usually brings up sinister and gloomy mental pictures before the victim. About the only reason for backache that he can think of involves his kidneys. It is comforting to know that the kidneys seldom are in fact so rarely as to be a negligible cause of chronic backache. Pain in lower part of the back is usually due to a sacro-iliac strain or to sciatica, which will be considered in other articles this week. Pain in the middle of the back so often ascribed to the kidneys is, in about 45 per cent of cases, what is generally called, "lumbago," and in about 45 per cent of cases, some form of strain.
Women are more subject to backache than men. In fact, a cynical physician has described woman as "a constipated biped with a backache." The cause of the more frequent backache in women is due to the strain of child bearing.
Lumbago Mean Pain
Lumbago, like sciatica, is about as cantankerous and mean and ornery a pain as a person can have. It originates in all the little tendons, muscles and fibers in the back, and makes every movement a torture. You do not realize how much you use any part of your body until it begins to pain, but this is particularly true of the back.
In treatment, the first thing is to make a diagnosis to be sure it is only lumbago or strain, and then go ahead. Strain can be cured by rest and proper support in the way of a corset. But I am convinced that the only thing to do with lumbago is to iron it out, which means get some blankets, or pieces of flannel, lie down on your face, and get your wife or somebody—no matter who—to run a hot iron over you three or four times a day and possibly two or three times at night. If you can't induce your wife to take this much interest in you, there is always somebody else—for instance, a trained nurse. A little massage is good, too, provided you can stand to let anybody touch you.

QUESTIONS FROM READERS
READER: "Please mention in your column if there is a treatment and cure for kidney stones, and if it is possible for them to be passed."
ANSWER: Kidney stones are frequently passed. They go down the small canal from the kidney to the bladder. The name of this canal is the "ureter." These stones usually cause a great deal of pain in the passage. After they reach the bladder they can be ejected from the body in the urethra with no pain at all.

EDITOR'S NOTE: Six pamphlets by Dr. Clendinging can now be obtained by sending 10 cents in coin, for each, and a self-addressed envelope stamped with a three-cent stamp, to Dr. Logan Clendinging, in care of this paper. The pamphlets are: "Indigestion and Constipation," "Reducing and Gaining," "Infant Feeding," "Instructions for the Treatment of Diabetes," "Feminine Hygiene," and "The Care of the Hair and Skin."

Carrying trade is a phrase used in political economy and also in commercial transactions. It usually refers to the commerce of different countries with each other.

The earliest glove makers in history were the monks under Charlemagne who were granted the unrestricted right of hunting in return for making gloves, girdles and book covers from the skins of the deer they killed.

THE EASY WAY OUT
An enterprising pastor, called to a parish in a small mining town, worked faithfully, added many new members, and finally built a new church. A steam heating plant was put in, and the little meeting house seemed to be complete in every way except it had no bell. Members had given so liberally that the pastor decided to raise enough funds from outsiders to buy a bell.
"Ye say ye 'ave a noo choorch?" one hard-handed Scotch miner replied to the pastor's appeal.
"Yes," said the pastor.
"An noo ye want a bell for ut?"
"Yes."
"An' ye say the choorch is 'ealed by steam?"
"Yes."
"Mon," said the miner, "wy dunt ye put a whistle on ut?"

FIFTY-FIFTY
"Your son has a great thirst for knowledge, madam. Where does he get it?"
"He gets the knowledge from me and the thirst from his father."
JUST LIKE A CHAMPION!
The champion athlete, in bed with a cold, was told that he had a temperature.
"How high is it, doctor?" he wanted to know.
"A hundred and one."
"What's the world record?"

New Guildcrafters Unit Being Organized in City

Miss Lola Wentworth Is Membership Chairman

A group of Circleville women interested in the creative arts and crafts is organizing a branch of the National Guildcrafters, an association of men and women active in work in applied arts, either as an avocation or as a source of income.

The membership campaign, inaugurated recently by Miss Lola Wentworth, W. Union-st., membership chairman, has as its objective 100 members. Miss Wentworth, who is an art graduate of Ohio State university and Columbus Art School, is being assisted by the following men and women, who are acting as sponsors:

Mrs. Hulise Hays, president of the southeast district of the Ohio Federation of Women's clubs; Mrs. Adrian Yates, Monday club president; Mrs. Howard Moore, member of the Board of Education; Mrs. Clark Will, president of the Child Conservation league; Mrs. Bertha Teegardin, club woman; Mrs. W. W. Robinson, a Girl Scout leader and a member of the Papyrus club; Frank Fischer, superintendent of schools, and Theodore C. Steele, graduate of Columbus Art school, and one of southern Ohio's outstanding artists.

The activities of the local unit of the National Guildcrafters will be social and cultural. Through national headquarters of the organization, located at Columbus, members of the local unit will be given individual training in 24 popular arts and crafts. This extension course was specially prepared for members by Ella L.

Langenberg, nationally known writer on aircraft subjects, authority on interior decoration and costume design, and a former art instructor at the Chicago Art Institute, Hunter College, the Snow-Froehlich Schools (Chicago and New York) and the Berkshire School of Art, Monterey, Mass.

As soon as membership requirements have been met, those behind the movement expect to establish an art center which will serve as a meeting place for the society. The Art Center, when established, will also be used for exhibitions, charity bazaars, and informal functions sponsored by the organization.

The national organization, according to Miss Wentworth, eventually expects to have training courses in all forms of art, expression to offer members. A short course in Freehand and Figure Drawing, prepared and illustrated by Alfred G. Pelikan, former instructor of art at the University of Michigan, and at present art director of the Milwaukee public schools, has been printed and is available to local members who have had applied art training.

Mrs. Leona Fetterman, who works out of the main office, is here assisting Miss Wentworth in the organization and is residing at 416 S. Court-st.

pletely "ducked" twice. Four men are needed in the operation and Dr. J. L. Spindler, Ashville veterinarian, is state supervisor in charge of the work.

The tank used is 11 feet long, 32 inches wide at the top and 18 inches at the bottom. It is five feet deep. The solution is heated by a steam boiler and three heated drying pens are used. These pens are arranged so the solution returns to the dipping tank. Large sheep soak up about 2 1/2 gallons of the dipping compound and lambs average about three-fourths of a gallon.

The new concrete building, housing the dipping tank, is 24 by 18 feet and has a basement under one room for the boiler and tank.

Harry J. Briggs, service manager of the Farm Bureau, announced arrangements are being made to have dippings for private owned flocks on Wednesday morning before the stock sale or on other days by special appointment.

Under the law pigs are given a double treatment for cholera which includes a one-third larger dose of serum than ordinarily given. Mr. Briggs stated.

Officials expressed deep interest in dispatches stating that Burco, Inc., of New York, a defendant in the case, will appeal. The government, however always prefers to appeal a case in which it is directly a party.

Collusion Claimed
Action of Judge Coleman in refusing the government's contention that there was collusion in the case, and in holding that John W. Davis of New York properly represented Fred Lautenbach, a Baltimore dentist, was hailed by Utilities interests.

WASHINGTON, Nov. 8—(INS)—President Roosevelt had no comment today on the Baltimore federal court decision which held the Wheeler-Rayburn holding company act to be unconstitutional in its entirety.

It was indicated, however, that Mr. Roosevelt might have something to say later in the day when he sees reporters in his regular Friday press conference.
President Roosevelt exerted strong personal pressure in the closing days of the last congress to obtain enactment of the bill.

Liberal Allowance for YOUR OLD STOVE
on a Genuine Estate Heatrola

It's what's inside a heater that counts. Only the genuine Heatrola has the fuel-saving Intensi-Fire Air Duct.

Look! The diagram shows the big reason why the genuine Heatrola gives MORE HEAT with LESS FUEL. The Intensi-Fire Air Duct spans the combustion chamber, blocks the escape of much of the heat which in ordinary heaters goes to waste—up the chimney.

Listen! It pays to buy the genuine Heatrola, for only the genuine has the Intensi-Fire Air Duct, the Ped-a-Lever Feed Door, and other exclusive fuel saving, labor saving features.

Come in and make arrangements for a new Heatrola now. Take advantage of an allowance on your old stove.

COUNTY BIDS FOR NATIONAL CORN HUSKING CONTEST

BLAIR, AGENT, SHAFER ATTEND INDIANA MEET

Believe Pickaway-Co Has Good Chance to Obtain Important Competition

Pickaway-co will make a bid for the 1937 national corn husking contest.

F. K. Blair, county extension agent, representing the Farm Bureau, and Reed Shafer, representing the Circleville Chamber of Commerce, left Thursday night to attend the event at Newton, Ind., and file their request.

Members of the Farm Bureau and local citizens believe no better section of the country could be selected for the national event than the fine corn fields of Pickaway-co.

FAMOUS FLYER FEARED FORCED DOWN IN OCEAN

Continued from Page One

on a flight to Brisbane, knows the 14,000 mile road to Australia as many a commuting motorist knows his 14 mile road home.

He first flew into fame when in the wide-winged monoplane, the Southern Cross, he made the first trans-Pacific flight, winging his way to San Francisco from Australia by way of Hawaii in June, 1928.

Against the advice of friends and well-wishers he turned right around and flew back to New Zealand in September of that year. In 1929 he broke the record for the Australia-to-England course.

In 1930 he became one of the first to make a successful flight westward across the Atlantic. He flew from Ireland in the Southern Cross. He was given a big ovation in New York. He delivered his beloved plane to Oakland, Cal. and then returned to England to do something about the news that Squadron Leader Winkler had broken his time on the Australian route.

He left England alone and arrived in Australia ten days later, an undreamed of performance and one that still stands as the solo record for the flight.

In 1930 he made the first all-Australian air mail flight to England and back. He was knighted by the King in recognition of his work in shortening "the far-flung line."

BRIGGS REMEMBERS SNOW 22 YEARS AGO

Twenty-two years ago today, Pickaway-co had an 8-inch snow and Harry Briggs, service manager of the Farm Bureau, then a farmer in Perry-twp., picked his apple crop.

Mr. Briggs explained the date was definitely fixed in his mind as Nov. 7, 22 years ago, was the arrival date of his daughter, Alice Elizabeth. He said he had planned to pick the apples on that date but the storm changed his plans and the following morning the ground was covered with the snow blanket.

"We shook the apples off the trees and the snow prevented them from being bruised," Mr. Briggs stated.

PATTERN 5209

Here is your chance to have gloves to match your different outfits or to make a most welcome Christmas gift. With crocheted gloves the last word, who wouldn't be thrilled to find them under the Christmas tree? These are so easy you can make several pairs for your friends. The lovely cuff is accented with puff stitches that can be in the same or contrasting color.

In pattern 5209 you will find complete directions for making the gloves in large, medium and

small sizes (all given in one pattern); material requirements; illustrations of the gloves and of all stitches needed.

To obtain this pattern send 10 cents in stamps or coin (coin preferred) to The Herald Household Arts Dept., 210 N. Court-st., Circleville, Ohio.

Sleeves Intriguing

Irene Dunne's white fur sports jacket has most intriguing sleeves, marking it decidedly 1935-6. In the making of the jacket the skins are alternated, giving it distinction. The jacket tops a brown crepe frock and hat with accessories to match.

LARGE AMOUNT OF WHEAT CASH GIVEN FARMERS

All Expense is Under Terms of
AAA; Two Hundred Millions
to Men of Soil

The wheat program of the Agricultural Adjustment administration meant about \$100,000,000 a year additional income to wheat farmers for each of the first two years of the program and will mean about \$115,000,000 additional income for the third year. The 1936-1939 wheat program is expected to mean similar additional income.

By far the greater amount of the funds of the wheat program goes to farmers. For instance, for the first two years of the wheat program, the adjustment payments amounted to \$200,250,000. In this same period the cost of administration was \$5,800,000.

Items For Exports
Other expenditures under the wheat program have been those made according to the terms of the Agricultural Adjustment Act among these items are funds used to promote exports from the Pacific Northwest and refunds made on exports. The refunds of the processing tax exports are made to farmers when they export wheat. These refunds are made so that the tax does not handicap exports. During the first two years the total export refunds and funds used to promote exports was \$10,500,000. Millers who ground flour for relief purpose paid the tax, but this was later refunded to them. This amounted to \$3,500,000 during the first two years of the program.

When the wheat program began, the floor stocks of flour which had been ground before the tax was effective, but which had not entered consumption, were taxed.

Britain's Vital Interest in Ethiopia

View of Lake Tsana

Lake and Nile headwaters

Raft on the Nile

Great Britain's vital interest in Ethiopia is Lake Tsana, source of the Blue Nile. The British are reported to have offered Emperor Haile Selassie \$5,000,000 for the lake, but the emperor refused. Now Italy may gain it by conquest, which disturbs the British. Lake Tsana's waters at present irrigate

lands along the Nile, permitting extensive cotton cultivation in Egypt. If Italy should deflect the waters, it could irrigate vast stretches in Ethiopia for cotton growing, at the same time hampering the growth of cotton in Egypt and reducing cotton imports into Italy.

This amounted to \$13,900,000. This amount is being held until the future time when the tax may be lifted and refunds will be necessary on floor stocks on which the tax had been paid.

COLLECTIONS LISTED

Mayor W. B. Cady reported collections for October as \$122.70. Collections for Berger hospital for the month totalled \$1,443.96. L. T. Shaner, safety director, reported.

IT WORKED FOR ME

Women should take only liquid laxatives

MORE people could feel fine, be fit and regular, if they would only follow the rule of doctors and hospitals in relieving constipation.

Never take any laxative that is harsh in action. Or one, the dose of which can't be exactly measured. Doctors know the danger if this rule is violated. They use liquid laxatives, and keep reducing the dose until the bowels need no help at all.

Reduced dosage is the secret of aiding Nature in restoring regularity. You must use a little less laxative each time, and that's why it should be a liquid like Syrup Pepsin.

Ask your druggist for a bottle of Dr. Caldwell's Syrup Pepsin, and if it doesn't give you absolute relief, if it isn't a joy and comfort in the way it overcomes biliousness due to constipation, your money back.

*Mild and yet they Satisfy
—how do you do that?*

Well, to start with, we take tobacco from our own Southland — mild ripe tobacco with lots of natural flavor but no harshness or bitterness.

THEN AS A SECOND STEP—

We blend this home-grown tobacco with spicy, aromatic Turkish tobaccos from across the seas. These Turkish tobaccos, you may know, have a flavor and fragrance entirely different from our own.

AS A THIRD STEP—

These tobaccos are cross-blended—welded together—the best way we've found to get a more pleasing flavor and a better taste in a cigarette.

THAT'S WHY CHESTERFIELDS
ARE MILD AND YET
THEY SATISFY

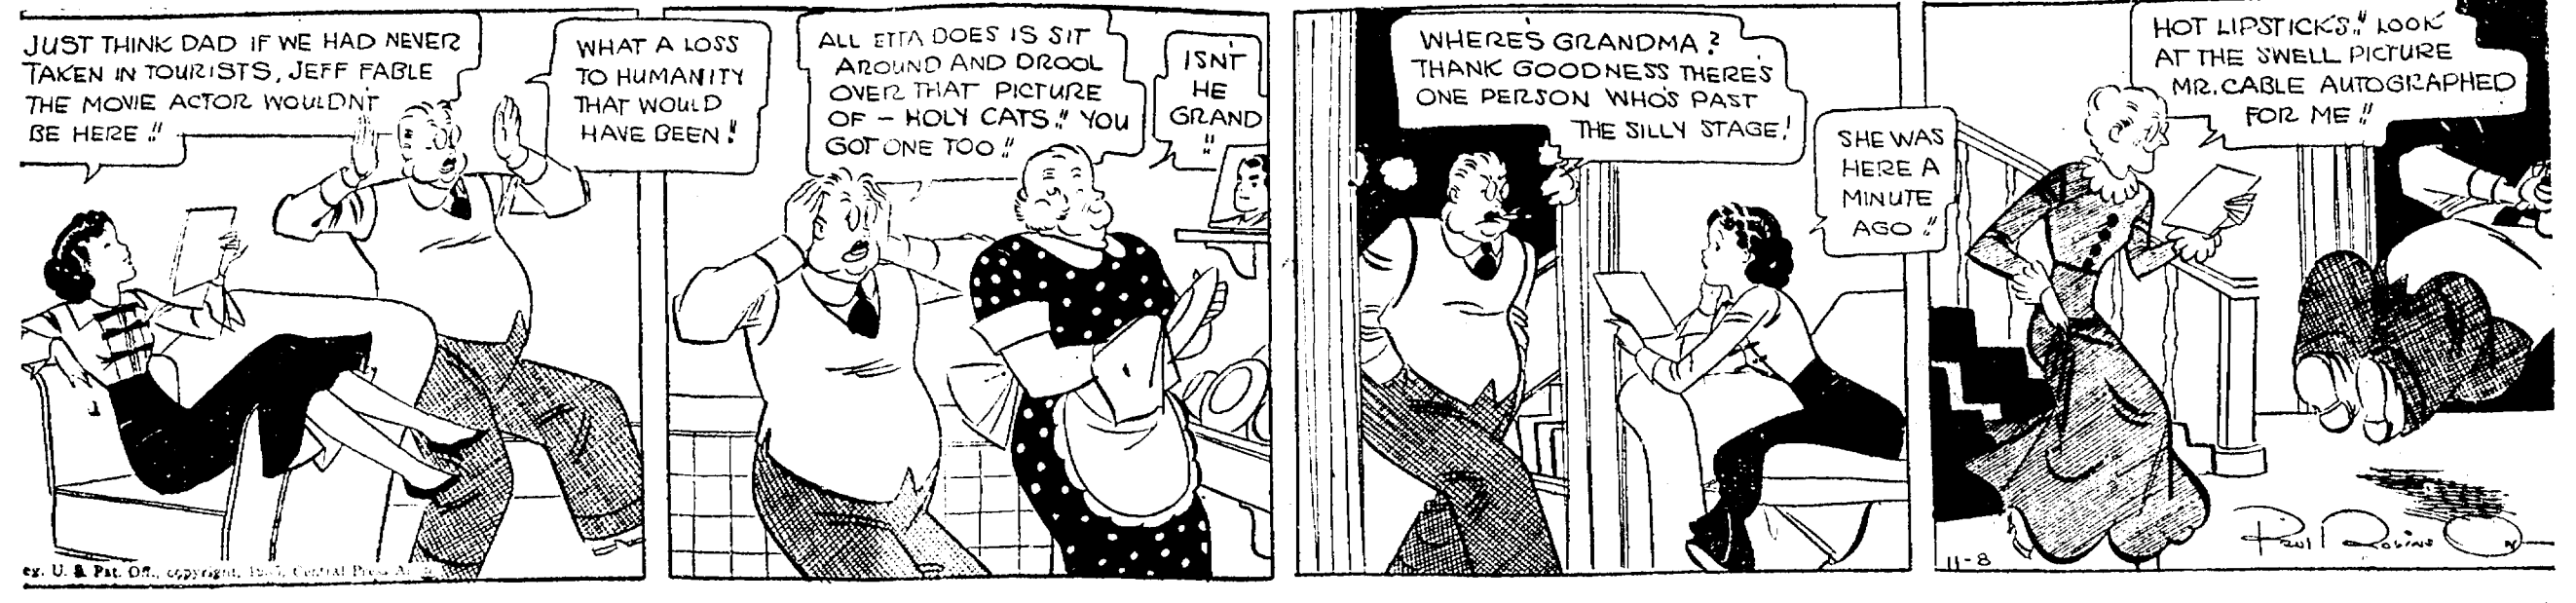

In a single day people from ten different states visited our Chesterfield factories. 8,200 visitors during the past year saw Chesterfields made.
